The Myth of the Good War Jacques R. Pauwels, 2015-03-06 In the spirit of historians Howard Zinn Gwynne Dyer and Noam Chomsky Jacques Pauwels focuses on the big picture Like them he seeks to find the real reasons for the actions of great powers and great leaders Familiar Second World War figures from Adolf Hitler to Franklin D. Roosevelt and Joseph Stalin are portrayed in a new light in this book The decisions of Hitler and his Nazi government to go to war were not those of madmen Britain and the US were not allies fighting shoulder to shoulder with no motive except ridding the world of the evils of Nazism In Pauwels' account the actions of the United States during the war years were heavily influenced by American corporations IBM GM Ford ITT and Standard Oil of New Jersey now called Exxon who were having a very profitable war selling oil armaments and equipment to both sides with money gushing everywhere Rather than analyzing Pearl Harbor as an unprovoked attack Pauwels notes that US generals boasted of their success in goading Japan into a war the Americans badly wanted One chilling account describes why President Truman insisted on using nuclear bombs against Japan when there was no military need to do so Another reveals that Churchill instructed his bombers to flatten Dresden and kill thousands when the war was already won to demonstrate British American strength to Stalin Leaders usually cast in a heroic mould in other books about this war look quite different here Nations that claimed a higher purpose in going to war are shown to have had far less idealistic motives The Second World War as Jacques Pauwels tells it was a good war only in myth The reality is far messier and far more revealing of the evils that come from conflicts between great powers and great leaders seeking to enrich their countries and dominate the world

Includes pictures Includes accounts of the fighting during D Day the Battle of the Bulge the Battle of Berlin and more
Includes online resources and a bibliography for further reading Includes a table of contents By the end of 1943 with Allied forces firmly established in Italy and the Soviets on the verge of turning the tide in Russia the British and Americans began to plot the invasion that would liberate Europe from the Nazis During the first half of 1944 the Americans and British commenced a massive buildup of men and resources in the United Kingdom while Allied Supreme Commander Dwight D Eisenhower and military brass planned the details of an enormous and complex amphibious invasion of Europe Though the Allies used misinformation to try deceiving the Germans the most obvious place for an invasion was just across the narrow English Channel and the Germans had built coastal fortifications throughout France to protect against just such an invasion The invasion across the Channel came in the early morning hours of June 6 1944 That day forever known as D Day the Allies commenced Operation Overlord by staging the largest and most complex amphibious invasion in human history The complex operation would require tightly coordinated naval and air bombardment paratroopers and even inflatable tanks that would be able to fire on fortifications from the coastline all while landing over 150 000 men across nearly 70 miles of French beaches Given the incredibly complex plan it s no surprise that General Eisenhower had already written a letter apologizing for the failure of the invasion which he carried in his coat pocket throughout the day After the successful amphibious invasion on D Day in June 1944 the Allies began racing east toward Germany and liberating France along the way It was Hitler s belief that by splitting the Allied march across Europe in their drive toward Germany he could cause the collapse of the enemy armies and cut off their supply lines Part of Hitler s confidence came as a result of underestimating American resolve but with the Soviets racing toward Berlin from the east this final offensive would truly be the last gasp of the German war machine and the month long campaign was fought over a large area of the Ardennes Forest through France Belgium and parts of Luxembourg From an Allied point of view the operations were commonly referred to as the Ardennes Offensive while the German code phrase for the operation was Unternehmen Wacht am Rhein Operation Watch on the Rhine with the initial breakout going under the name of Operation Mist Today Americans know it best as the Battle of the Bulge After resisting the German attack the Allied armies began advancing and with that the race to Berlin was truly on In April 1945 the Allies were within sight of the German capital of Berlin but Hitler refused to acknowledge the collapsed state of the German military effort even at this desperate stage and he confined himself to his Berlin bunker where he met for prolonged periods only with those that professed eternal loyalty even to the point of death In his last weeks Hitler continued to blame the incompetence of military officers for Germany s apparent failings and he even blamed the German people themselves for a lack of spirit and strength As their leader dwelled in a state of self pity without remorse or mercy but near suicide the people of Berlin were simply left to await their fate as Russians advanced from the east and the other Allies advanced from the west The battle would technically begin on April 16 1945 and though it ended in a matter of weeks it produced some of the war s most

climactic events and had profound implications on the immediate future In the wake of the war the European continent was devastated leaving the Soviet Union and the United States as uncontested superpowers Chronology of the Modern World
