*Educational Assessment in a Time of Reform* Coert Loock, Vanessa Scherman, 2019-11-20 Educational Assessment in a Time of Reform provides background information on large scale examination systems more generally and the South African examination specifically. It traces the reforms in the education system of South Africa since 1994 and provides a description of the advances in modern test theory that could be considered for future standard setting endeavours. At the heart of the book is the debate on whether the current standard of education in Africa is good enough. If not then how can it be improved. The aim of this book is to provide a point of departure for discussions on standard setting quality assurance equating of examinations and assessment approaches. From this point of departure recommendations for practices in general and the exit level Grade 12 examination results in particular can be made. This book is ideal reading for principals, teachers, academics and researchers in the fields of educational assessment, measurement and evaluation.

Llewellyn Ellardus Van Zyl, Marijke Schotanus-Dijkstra, Susana Llorens, Jeff Klibert, Machteld Van Den Heuvel, Claude-Hélène Mayer, Wenjie Duan, Dan Tomasulo, 2022-11-14 *In Search of Research Excellence* Ronald K. Mitchell, Richard N. Dino, 2011-01-01 This path breaking book gathers best practices advice from the masters about how to achieve excellence in entrepreneurship research, how to create an outstanding research career and how to avoid the pitfalls that can sidetrack emerging scholars. Combining narratives from the 2009 and 2010 Entrepreneurship Exemplars Conferences, the authors frame the dialogue using person-environment fit theory and present keynote addresses and dialogue sessions that bring together editors and authors to reach into the unexplored corners of the top tier research craft. This book makes explicit the tacit knowledge of top tier research, giving all readers access to how to advice from research craft masters. Learn what Howard Aldrich, Jay Barney, Michael Hitt, Duane Ireland, Patricia P. McDougall and S. Venkat Venkataraman have to say about making research efforts count toward building a fulfilling and rewarding research career. Employing a combination of web and text media, this easy to read volume caters to researchers who may lack proximity to world class sounding boards. This guidebook offers a clear portrayal of the realities of progress milestones within a top tier research career and is a must read for all emerging scholars in entrepreneurship and beyond.

[Open IT-Based Innovation: Moving Towards Cooperative IT Transfer and Knowledge Diffusion](#) Gonzalo León, Ana M. Bernardos, José R. Casar, Karlheinz Kautz, Janice I. DeGross, 2008-09-25 The 11th Working Conference of IFIP WG 8.6 Open IT Based Innovation Moving Towards Cooperative IT Transfer and Knowledge Diffusion organized in Madrid in October 22-24 2008 follows the series started in Oslo in 1995 and continues in the footprints of the past year's conference in Manchester. This year, although the Madrid Conference addresses the usual topics covered in previous WG8.6 conferences, the emphasis is on the issue of open innovation and its relationships with technology transfer and diffusion in the field of information technology. This issue is deeply modifying the way that knowledge is generated.

shared transferred diffused and used across the world as a side effect of globalization It affects the organizational structure partnerships roles assumed by stakeholders and technology transfer and diffusion models and instruments Industry academia and governments are simultaneously concerned Although the concept applies to all industrial sectors IT companies were early innovators The analysis of the contents of this book allows the identification of some trends in technology transfer and diffusion issues as a part of the innovation process The same problem is addressed in very different ways and extrapolation is not straightforward Even innovation terminology is not clearly shared by different subcultures in the field

**In the Shadow of the Machine** Jeremy Naydler,2018-05-29 Contemporary life is so deeply reliant upon digital technology that the computer has come to dominate almost every aspect of our culture What is the philosophical and spiritual significance of this dependence on electronic technology both for our relationship to nature and for the future of humanity And what processes in human perception and awareness have produced the situation we find ourselves in As Jeremy Naydler elucidates in this penetrating study we cannot understand the emergence of the computer without seeing it within the wider context of the evolution of human consciousness which has taken place over millennia Modern consciousness he shows has evolved in conjunction with the development of machines and under their intensifying shadow The computer was the product of a long historical development culminating in the scientific revolution of the 17th century It was during this period that the

first mechanical calculators were invented and the project to create more complex thinking machines began in earnest. But the seeds were sown many hundreds of years earlier deep in antiquity. Naydler paints a vast panorama depicting human development and the emergence of electronic technology. His painstaking research illuminates an urgent question that concerns every living person today. What does it mean to be human and what if anything distinguishes us from machines?
