Investigating Entrepreneurial Opportunities Richard P. Green, II, James J. Carroll, 2000-02-15 Opening your own business is a risky proposition. Personal funds time energy and opportunities are invested in owning and operating a business. Under the best of circumstances the chance of failure is high. Under adverse business conditions failure is nearly certain. The best control for risk is to recognize and avoid bad purchase decisions through the process of due diligence. Due diligence comprises conducting an investigation to determine the full implications of making the acquisition of a business. During the process of due diligence every aspect of the business is examined in exacting detail. Nothing is taken for granted. Investigating Entrepreneurial Opportunities explains the process with simple easy to follow steps. The authors both CPAs who have bought and sold several businesses reveal creative and low cost ways to do your own due diligence in investigating.
