## **The Language War:**

**The Language War** Robin Tolmach Lakoff,2000-05-22 Robin Lakoff gets to the heart of one of the most fascinating and pressing issues in American society today who holds power and how they use it keep it or lose it In a brilliant and vastly entertaining discussion of news events that have occupied an enormous amount of media space political correctness the Anita Hill Clarence Thomas hearings Hillary Rodham Clinton as First Lady O J Simpson s murder trial the Ebonics controversy and the Clinton sex scandal Lakoff shows that the struggle for power and status at the end of the century is being played out as a war over language Controlling language is a basis for all power she says and therefore it is worth fighting for As a result newly emergent groups especially blacks and women are contending with middle to upper class white men for a share in language rights Lakoff s introduction to linguistic theories and the philosophy of language lays the groundwork for an exploration of news stories that meet what she calls the UAT Undue Attention Test As the stories became the subject of talk show debates late night comedy routines Web sites and magazine articles they were embroidered with additional meanings depending on who was telling the story Race gender or both are at the heart of these stories and each one is about the right to construct meanings from language in short to possess power Because language tells us how we are connected to one another who has power and who does not the stories reflect the language war We use language to analyze what we call reality the author argues but we mistrust how language is used today witness the politics of personal destruction following the Clinton impeachment Yet Lakoff sees in the struggle over language a positive goal equality in the creation of our national discourse Her writing is accessible and witty and her excerpts from the media are used to great effect

narratives from the interpersonal to the international leads to a better understanding of political processes and conflict resolution Part one of the study deals with micropolitics and personal positioning Part two explores positioning by political parties and factions Links between micro and macro are illustrated by leadership studies of individuals such as President Barak Obama President Mahmoud Ahmadinejad President George W Bush Governor Sarah Palin and the Reverend Ian Paisley The focus throughout is on how a leader can use language to redirect collective politics in support of conflict or of peace
