The Knight and the Dragon. An Ancient Ballade Tom Hood, 1886 *The Knight and the Umbrella* Ian Anstruther, 1963 Models of Understanding Text Bruce K. Britton, Arthur C. Graesser, 2014-02-25 What is text understanding It is the dynamic process of constructing coherent representations and inferences at multiple levels of text and context within the bottleneck of a limited capacity working memory The field of text and discourse has advanced to the point where researchers have developed sophisticated models of comprehension and identified the particular assumptions that underlie comprehension mechanisms in precise analytical or mathematical detail The models offer a priori predictions about thought and behavior not merely ad hoc descriptions of data Indeed the field has evolved to a mature science The contributors to this volume collectively cover the major models of comprehension in the field of text and discourse Other books are either narrow covering only a single theoretical framework or do not focus on systematic modeling efforts In addition this book focuses on deep levels of understanding rather than language codes syntax and other shallower levels of text analysis As such it provides readers with up to date information on current psychological models specified in quantitative or analytical detail
