Energy Conservation Through Land Use Planning W. R. Derrick Sewell, Harold D. Foster, Canada. Lands Directorate, 1980

The initiation of a policy of energy efficient land use planning is a difficult proposition since it requires a long term commitment and there are relatively few immediate returns as there are for example when you turn off the lights. As a result a strategy for energy conservation through land use planning did not become immediately significant after the oil crisis in 1973.
