International Handbook of Metacognition and Learning Technologies Roger Azevedo, Vincent Aleven, 2013-04-23
Education in today's technologically advanced environments makes complex cognitive demands on students pre learning during and post learning Not surprisingly these analytical learning processes metacognitive processes have become an important focus of study as new learning technologies are assessed for effectiveness in this area Rich in theoretical models and empirical data the International Handbook of Metacognition and Learning Technologies synthesizes current research on this critical topic This interdisciplinary reference delves deeply into component processes of self regulated learning SRL examining theories and models of metacognition empirical issues in the study of SRL and the expanding role of educational technologies in helping students learn Innovations in multimedia hypermedia microworlds and other platforms are detailed across the domains so that readers in diverse fields can evaluate the theories data collection methods and conclusions And for the frontline instructor contributors offer proven strategies for using technologies to benefit students at all levels For each technology covered the Handbook Explains how the technology fosters students metacognitive or self regulated learning Identifies features designed to study or support metacognitive SRL behaviors Reviews how its specific theory or model addresses learners metacognitive SRL processes Provides detailed findings on its effectiveness toward learning Discusses its implications for the design of metacognitive tools Examines any theoretical instructional or other challenges These leading edge perspectives make the International Handbook of Metacognition and Learning Technologies a resource of great interest to professionals and researchers in science and math education classroom teachers human resource researchers and industrial and other instructors

The Routledge Handbook of Second Language Acquisition and Listening Elvis Wagner, Aaron Olaf Batty, Evelina Galaczi, 2024-07-29 The Routledge Handbook of Second Language Acquisition and Listening offers a state of the art systematic discussion of the role of listening in second language acquisition SLA and use This handbook positions listening not just as a receptive comprehension skill but also as an integral part of interaction a vital component in the process of language acquisition and a skill which needs attention in its own right World leading international scholars synthesize and contextualize the salient theoretical approaches methodological issues empirical findings practical applications and emerging themes in L2 listening development and processing They illustrate the role that L2 listening ability plays in understanding SLA and interactional competence and set the future research agenda to move the field forward This volume is an indispensable resource to students scholars and practitioners from the fields of SLA cognitive psychology language teaching and assessment as well as those interested in pronunciation speaking and oral communication

Manual of mental and physical tests v.1, 1914 Guy Montrose Whipple, 1914 *Contemporary Second Language Assessment* Jayanti Veronique Banerjee, Dina Tsagari, 2016-06-30 Includes chapters on key aspects of second language assessment such as test construct diagnosis exam design and the growing range of public policy social and ethical issues

Each of the contributors is an expert in their area some are established names while others are talented newcomers to the field The chapters present new research or perspectives on traditional concerns such as test quality fairness and bias the testing of different language skills the needs of different groups of examinees including English language learners who need to take content tests in English and the use of language assessments for gate keeping purposes The volume demonstrates how language assessment is informed by and engages with neighbouring areas of applied linguistics such as technology and language corpora The book represents the best of current practice in second language assessment and as a one volume reference will be invaluable to students and researchers looking for material that extends their understanding of the field
