**George Douglas Atkins**

## **That Familiar Touch:**

**Estranging the Familiar** George Douglas Atkins, 1992 In *Estranging the Familiar* G Douglas Atkins addresses the often lamented state of scholarly and critical writing as he argues for a criticism that is at once theoretically informed and personal. The revitalized critical writing he advocates may entail but is not limited to a return to the essay the form critical writing once took and the form that is now enjoying a resurgence of popularity and excellence. Atkins contends that to reach a general audience criticism must move away from the impersonality of modern criticism and contemporary theory without embracing the old fashioned essay. The venerable familiar essay may remain the basis, Atkins writes, but its conventional openness, receptivity and capaciousness must extend to theory, philosophy and the candor that seems to mark the tail end of the twentieth century. In noting the timeliness if not the necessity of a return to the essay, Atkins also considers our culture's parallel return to the personal. When the essay combines good writing with the concerns of the personal, Atkins says, it becomes a form of criticism that is readable, vital and potentially attractive to a large readership. Atkins hopes critics will tap into the revitalized interest the essay now enjoys without ignoring the considerable insights and advances of contemporary theory. He argues that despite claims to the contrary, there is no inherent incompatibility between the essay and modern theory. As Atkins considers various experiments in critical writing from Plato to the present, notably feminist interest in the personal and autobiographical, he contends that these attempts, although undeniably important, fall short of the desired goal when they emphasize the merely expressive and neglect the artful quality good writing can bring to personal criticism. The final third of the book consists of a series of experiments in critical writing that represent the author's own attempts to bridge the gap between theory and popular criticism, between an academic and a general audience. In essays that illustrate the rhetorical power of the form, Atkins describes the reciprocal relationship between his life experience and a reading of *The Odyssey*, explains the role that theory has played in his personal development and chronicles his attempts to find a voice as a writer. *All the Familiar Colloquies of Desiderius Erasmus, of Rotterdam* Desiderius Erasmus, 1733 [The Routledge Handbook of Mobile Socialities](#) Annette Hill, Maren Hartmann, Magnus Andersson, 2021-05-06 This is a state of the art survey of an emerging area of study in media communication and cultural studies: mobility studies and mobile communications. *Mobile socialities* demarcates a new area of research that captures people's various and contrary experiences of media in relation to their mobilities and socialities. The chapters in this volume are written by a range of international scholars offering a comprehensive overview and source of inspiration for a diverse range of topics on the contingent practices and finite resources of people and media on the move. The book demonstrates through empirical and theoretical research how mobile socialities is a generative concept for thinking through power, identity and the contexts of media in public and mediated spaces, work and everyday life, addressing a spectrum of mobile socialities and lived politics. The research and various cases make visible previously hidden or obscured social practices and allow us to rethink the meanings of mobility, digital media or

the home in these examples of people living within the centre and peripheries of society The Handbook establishes mobile socialities as a new area of academic enquiry ideal for advanced undergraduate students and scholars across the disciplines of media communication and cultural studies anthropology cultural geography and sociology **Mobile Media Practices, Presence and Politics** Kathleen M. Cumiskey, Larissa Hjorth, 2013-08-29 As an example of convergence the mobile phone especially in the form of smartphone is now ushering in new promises of seamlessness between engagement with technology and everyday common experiences This seamlessness is not only about how one transitions between the worlds of the device and the physical environment but it also captures the transition and convergences between devices as well i e laptop to smartphone smartphone to tablet This volume argues however that these transitions are far from seamless We see divisions between online and offline virtual and actual here and there taking on different cartographies emergent forms of seams It is these seams that this volume acknowledges challenges and explores socially culturally technologically and historically as we move to a deeper understanding of the role and impact of mobile communication s saturation throughout the world

which are lit every evening upon the outskirts of human habitation Dull heaps with a minimum of fire a maximum of smoke where the humanity which has produced the litter the refuse gathers for gossip or for warmth Even in the fields beyond the multitude of men where some long limbed peasant watching his hope of harvest dozes by a solitary fire this same smoke rises in a solid column until beaten down by the colder moister air above it drifts sideways to spread like a vast cobweb over the dew set carpet of green corn Taken from prologue
