The Later Middle Ages:

The Later Middle Ages Isabella Lazzarini, 2021-04-29 Of all the sub periods in which European medieval history has been divided over time the later middle ages is possibly the one on which the burden of past and current grand narratives weighs the most Its chronological and geopolitical boundaries are shaped by a heavy narrative of decline or transition and consequently this period is often interpreted through the lenses of previous or following developments becoming in turn the tail end of the feudal communal imperial versus papal era or the announcement of modernity The Later Middle Ages addresses the urgent need to revise and rewrite the story of this period forging new critical and technical vocabularies not derived from the study of other periods By adopting a conscious approach towards temporal and spatial variety and by breaking the traditional and unitary narrative of decline and transition into one of many changes and continuities it charts the principal developments of late medieval Europe while opening up to different political cultures and societies throwing new light on older concepts and revealing analogies and differences with other geopolitical contexts Including maps illustrations a detailed chronology and a rich range of reading suggestions The Later Middle Ages aims at providing a first introduction to a very complex dynamic and fascinating period for Europe and beyond *The Later Middle Ages, 1272-1485*

Augustinian Theology in the Later Middle Ages Eric Leland Saak, 2021-12-13 The culmination of thirty years of

research Eric Leland Saak's *Augustinian Theology in the Later Middle Ages* offers a comprehensive new interpretation of late medieval Augustinianism. The first of a two volume work, the present book sets the stage and analyzes the conceptual and methodological structures requisite for interpreting the reception of Augustine in the later Middle Ages historically together with explicating the first two of the four pillars of Augustinian theology: the Augustinian Hermits, political theology, the teaching in the Order's schools, the Order's university theology, and its moral theology. Holistically fused with the Order's religious identity, these distinct yet interconnected components of Augustinian theology, rather than a narrow, theologically defined anti-Pelagianism, provided the context for the emergence of the Reformation. **A Companion to Britain in the**

Later Middle Ages S. H. Rigby, 2008-04-15 This authoritative survey of Britain in the later Middle Ages comprises 28 chapters written by leading figures in the field. Covers social, economic, political, religious, and cultural history in England, Ireland, Scotland, and Wales. Provides a guide to the historical debates over the later Middle Ages. Addresses questions at the leading edge of historical scholarship. Each chapter includes suggestions for further reading. **Luther and the**

Reformation of the Later Middle Ages Eric Leland Saak, 2017-04-19 In 1517 Martin Luther posted his 95 Theses, an act often linked with the start of the Reformation. In this work, Eric Leland Saak argues that the 95 Theses do not signal Luther's break from Roman Catholicism. An obedient, Observant Augustinian Hermit, Luther's self-understanding from 1505 until at least 1520 was as Brother Martin Luther, Augustinian, not Reformer, and he continued to wear his habit until October 1524. Saak demonstrates that Luther's provocative act represented the culmination of the late medieval Reformation. It was only the failure of this earlier Reformation that served as a catalyst for the onset of the sixteenth-century Protestant Reformation. Luther's true Reformation discovery had little to do with justification by faith or with his 95 Theses. Yet his discoveries in February of 1520 were to change everything. *Writing Masculinity in the Later Middle Ages* Isabel Davis, 2007-02-22

Medieval discourses of masculinity and male sexuality were closely linked to the idea and representation of work as a male responsibility. Isabel Davis identifies a discourse of masculine selfhood which is preoccupied with the ethics of labour and domestic living. She analyses how five major London writers of the late fourteenth and early fifteenth centuries constructed the male self: William Langland, Thomas Usk, John Gower, Geoffrey Chaucer, and Thomas Hoccleve. These literary texts, while they have often been considered for what they say about the feminine role and identity, have rarely been thought of as evidence for masculinity. This study seeks to redress that imbalance. Looking again at the texts themselves and their cultural contexts, Davis presents a genuinely fresh perspective on ideas about gender, labour, and domestic life in medieval Britain.

England in the Later Middle Ages Maurice Hugh Keen, 2003 First published to wide critical acclaim in 1973, this is an excellent second edition that brings the study up to date. Maintaining the spirited character of the original, this is a seminal text for students of this diverse and complex period. Each chapter includes a discussion of the historiographical developments of the last decade, and focusing on the plague and the economy, Maurice Keen presents a fresh look at the changing world of

the Later Middle Ages Surveying the period from Edward I to the death of Richard III which heralded in the Tudor age this enthralling and informative work will be of massive benefit to students of history and the Middle Ages **The Later Middle Ages** George Holmes,1970 **Hospitals and Healing from Antiquity to the Later Middle Ages** Peregrine Horden,2023-05-31 The first part of this collection brings together a selection of Peregrine Horden s papers on the history of hospitals and related institutions of welfare provision from their origins in Late Antiquity to their medieval flourishing in Byzantium and the Islamic lands as well as in western Europe The hospital is seen in a variety of original contexts from demography and family history to the history of music and the liturgy The second part turns to the history of healing and medicine outside the hospital as well as within it These studies cover a period from Hippocratic times to the Renaissance but with a particular focus on the Mediterranean region Byzantine Middle Eastern and Western in the Middle Ages *The Later Middle Ages* John Compton Dickinson,1979 The Later Middle Ages, 1272-1485 George Andrew Holmes,1974 **The Later Middle Ages, 1271-1485** George Holmes,1962 The Later Middle Ages Carolyn P.
