Labyrinths of Light Terence Munsey,1995 *Celebrating the Labyrinth* Gailand MacQueen,2021-04-05 Labyrinths and labyrinthine borders have been around for a very long time In fact they have been used outside of formal religion as a ritual object to express spiritual values for at least 3500 years in countries all over the world including China India the Holy Land Ireland Southern Europe Scandinavia pre Columbian America and England They can be found at Neolithic and Sardinian and Hopi rock art sites in Hindu temples and Taoist shrines bordering Minoan frescoes and in Roman mosaics They have been incorporated into Roman Catholic and Episcopal cathedrals Protestant churches and in New Age retreat centres They have been carved into rocks turf and wood engraved in metal laid out in stones woven in reeds set in tiles painted and drawn In other words the labyrinth is a nearly universal form and comes as close as we can to an archetype An archetype is a symbol that appeals to us at an unconscious level We don t have to struggle with its meaning intellectually Its symbolic meaning is somehow ingrained in us part of our very nature As a result it may appeal to us without our even understanding why It is always risky to talk about the meaning of such an archetypal symbol We know that it must carry a wealth of meaning to appeal to so many different sorts of people over such a long stretch of time But we can tentatively explore some of its meanings if we stay aware that we can never really plumb all of its riches
