Spirits Captured In Stone Shamanism And Traditional Medicine Among The Taman Of Borneo:

Spirits Captured in Stone Jay H. Bernstein, 1997 This fascinating case study focuses on shamanism and the healing practices of the Taman a formerly tribal society indigenous to the interior of Borneo The Taman typically associate illness with an encounter with spirits that both seduce and torment a person in dreams or waking life Rather than use medicines to counter the effect of these discomforting visitors the shamans called baliens use stones that are said to contain the convergence of wild spirits that have come into being during the initiation ceremony P 209 *Borneo Studies in History, Society and Culture* Victor T. King, Zawawi Ibrahim, Noor Hasharina Hassan, 2016-08-12 This edited book is the first major review of what has been achieved in Borneo Studies to date Chapters in this book situate research on Borneo within the general disciplinary fields of the social sciences with the weight of attention devoted to anthropological research and related fields such as development studies gender studies environmental studies social policy studies and cultural studies Some of the chapters in this book are extended versions of presentations at the Borneo Research Council's international conference hosted by Universiti Brunei Darussalam in June 2012 and a Borneo Studies workshop organised in Brunei in 2012 The volume examines some of the major debates and controversies in Borneo Studies including those which have served to connect post war research on Borneo to wider scholarship It also assesses some of the more recent contributions and interests of locally based researchers in universities and other institutions in Borneo itself The major strength of the book is the inclusion of a substantial amount of research undertaken by scholars working and teaching within the Southeast Asian region In particular there is an examination of research materials published in the vernacular notably the outpouring of work published in Indonesian by the Institut Dayakologi in Pontianak In doing so the book also addresses the urgent matters which have not received the attention they deserve specifically subjects themes and issues that have already been covered but require further contemplation elaboration and research and the scope for disciplinary and multidisciplinary collaboration in Borneo Studies The book is a valuable resource and reference work for students and researchers interested in social science scholarship on Borneo and for those with wider interests in Indonesia and Malaysia and in the Southeast Asian region

Shamanism Mariko Namba Walter, Eva Jane Neumann Fridman, 2004-12-15 A guide to worldwide shamanism and shamanistic practices emphasizing historical and current cultural adaptations This two volume reference is the first international survey of shamanistic beliefs from prehistory to the present day In nearly 200 detailed readable entries leading ethnographers psychologists archaeologists historians and scholars of religion and folk literature explain the general principles of shamanism as well as the details of widely varied practices What is it like to be a shaman Entries describe region by region the traits such as sicknesses and dreams that mark a person as a shaman as well as the training undertaken by initiates They detail the costumes music rituals artifacts and drugs that shamans use to achieve altered states of consciousness communicate with spirits travel in the spirit world and retrieve souls Unlike most Western books on

shamanism which focus narrowly on the individual's experience of healing and trance. Shamanism also examines the function of shamanism in society from social, political and historical perspectives and identifies the ancient continuous thread that connects shamanistic beliefs and rituals across cultures and millennia. **Korean Shamanism** Chonho Kim, 2018-01-18

Title first published in 2003. Shamanism has a contradictory position within the Korean cultural system leading to the periodical suppression of shamanism yet also paradoxically ensuring its survival throughout Korean history. This book examines the place of shamans within contemporary society as a cultural practice in which people make use of shamanic ritual and disputing the prevalent view that shamanism is popular culture, a women's religion or performing arts. Directly confronting the prejudice against shamans and their paradoxical situation in a modern society such as Korea this book reveals the cultural discrepancy between two worlds in Korean culture the ordinary world and the shamanic world showing that these two worlds cannot be reconciled. This unique study of shamanism offers a significant contribution to growing studies in indigenous anthropology and indigenous religions and provides a captivating read for a wide range of readers through retelling the stories never to be told involving shamanic ritual. *Traditional Medicine Among the Ngaju Dayak in Central Kalimantan* Johannes Salilah, 1998

Shamans in Asia Clark Chilson, Peter Knecht, 2003-12-08. Shamans throughout much of Asia are regarded as having the power to control and coerce spirits. Many Asians today still turn to shamans to communicate with the world of the dead, heal the sick and explain enigmatic events. To understand Asian religions therefore a knowledge of shamanism is essential. *Shamans in Asia* provides an introduction to the study of shamans and six ethnographic studies each of which describes and analyses the lives and activities of shamans in five different regions: Siberia, China, Korea and the Ryukyu islands of southern Japan, Bangladesh and Pakistan. The essays show what type of people become shamans, what social roles they play and how shamans actively draw from the worldviews of the communities in which they operate. As the first book in English to provide in-depth accounts of shamans from different regions of Asia it allows students and scholars to view the diversity and similarities of shamans and their religions. Those interested in spiritual specialists, the anthropological study of religion and local religions in Asia will be intrigued if not entranced by *Shamans in Asia*.

Ritual Retellings Isabell Herrman, 2015-03-01. Belian is an exceptionally lively tradition of shamanistic curing rituals performed by the Luangans, a politically marginalized population of Indonesian Borneo. This volume explores the significance of these rituals in practice and asks what Belian rituals do socially, politically and existentially for particular people in particular circumstances. Departing from the conception that rituals exist as ethereal liminal or insulated traditional domains this volume demonstrates the importance of understanding rituals as emergent within their specific historical and social settings. It offers an analysis of a number of concrete ritual performances exemplifying a diversity of ritual genres, stylistic modalities and sensual ambiences from low key habitual affairs to drawn out crowd seizing community rituals and innovative montages like cultural experiments. **Bijdragen tot de taal-, land- en volkenkunde van Nederlandsch-Indië**, 2000 Literatur
