Defending French in Flanders, 1873-1974 David J. Hensley,2023-12-28 This book examines the efforts of the French speaking minority in Flanders Belgium to maintain a legal and social presence of the French language in Flemish public life Chronologically the study is bookended by two developments almost exactly a century apart In 1873 the first laws were passed which required the use of Dutch in some aspects of public administration in Flanders challenging the de facto use of French among the Flemish ruling class One hundred and one years later the last French daily newspaper in Flanders

collapsed marking the end of a once vibrant French language public sphere in Flanders. The author contends that the methods and arguments by which French speakers defended the role of French in Flemish public life changed along with the social and political situation of this minority. As the Flemish movement grew over the course of the twentieth century French speakers' appeals to the free choice of language lost traction and they put forward claims that they represented an ethnolinguistic minority who deserved protection for their mother tongue. Providing new insights for scholars of European history and in conversation with the literature on liberalism, national identity and Francophonie, this book demonstrates how the debate over the role of French in Flanders was at the center of Belgium's ethnolinguistic conflict, the repercussions of which continue to be felt to this day.
