**Focus on Grammar and Meaning** Luciana C. de Oliverira, Mary J. Schleppegrell, 2016-06-28 Focus on Grammar and Meaning explores how to teach grammar effectively to second or foreign language learners aged 5-18. It provides teachers with research insights that will help them to reflect on their classroom practice and enable them to experiment with different ways of teaching grammar. Taking a systemic functional approach, the authors emphasize the importance of linking language and meaning in teaching. Key research studies on grammar instruction are featured, examples from real classroom practice are examined, and activities are provided to help teachers relate the content to their own teaching context. **Delivering Authentic Arts Education with Student Resource Access 12 Months** Judith Dinham, 2016-08-23 This practical text helps student teachers develop their confidence, understandings, and skills so that they can effectively and authentically teach arts in primary and middle school classrooms. Delivering Authentic Arts Education outlines the true nature of arts education and its importance in the curriculum, emphasising the arts as forms of creative activity, meaning-making, and expression in a cultural context. Chapters discuss how to recognise and build on your existing artistic abilities and pedagogical skills, how to encourage children's creativity, how to lead arts appreciation experiences, and the general principles of planning and assessment. They then examine the five arts areas: dance, drama, media arts, music, and visual arts. The final part of the text contains sample learning activities and resources that demonstrate how to plan an effective lesson within a unit of inquiry. Practical tips, classroom snapshots, starter ideas, and suggestions for online resources show you the links between theory and practice so you can develop arts education experiences that are purposeful, stimulating, and engaging for everyone.
