So What Is Citizenship Anyway:

Citizenship education Great Britain: Parliament: House of Commons: Education and Skills Committee, 2007-03-08 In light of the recommendations of the Crick report on citizenship education Education for citizenship and the teaching of democracy which can be downloaded at http://www.qca.org.uk/downloads/6123_crick_report_1998.pdf published in September 1998 the subject was introduced into the school curriculum in 2002 on a compulsory basis for secondary schools and as part of the non statutory framework for primary schools The Committee's report assesses the progress made during the last four years to deliver quality citizenship programmes and examines the barriers that exist to its successful implementation It finds that when well done citizenship education motivates and inspires young people but the quality and extent of these programmes are still inconsistent across the country This patchiness needs to be tackled head on and progress accelerated requiring strong support from the DfES and Ministers as well as action from those on the ground The Committee welcomes the Government's decision to accept the recommendations of the report by Sir Keith Ajegbo which highlighted the need for citizenship curriculum to have a closer focus on issues of identity diversity and belonging More can be done to disseminate between settings good practice information about approaches that are working in other institutions particularly in relation to whole school or college approaches that develop opportunities for active citizenship although it is essential that programmes are locally owned and relevant to the particular context The development of the workforce is also important to the success of citizenship education and although the expansion of the Continuing Professional Development CPD citizenship certificate programme is welcome more resources are needed to develop capacity in initial teacher training places for citizenship education

Stierstorfer, 2021-10-25 This edited volume is the first to focus on how concepts of citizenship diversify and stimulate the long standing field of law and literature and vice versa Building on existing research in law and literature as well as literature and citizenship studies the collection approaches the triangular relationship between citizenship law and literature from a variety of disciplinary conceptual and political perspectives with particular emphasis on the performative aspect inherent in any type of social expression and cultural artefact The sixteen chapters in this volume present literature as carrying multifarious at times opposing energies and impulses in relation to citizenship These range from providing discursive arenas for consolidating challenging and re negotiating citizenship to directly interfering with or inspiring processes of law making and

governance The volume opens up new possibilities for the scholarly understanding of citizenship along two axes Citizenship as Literature Enacting Citizenship and Citizenship in Literature Conceptualising Citizenship The Exclusive European Citizenship Jens Magleby Sørensen,1996 *Congressional Record* United States.
