Lynn Fox, Shirley E. Forbing, 1992 Human Rights and Public Finance Aoife Nolan, Rory O'Connell, Colin

Harvey, 2013-10-21 This edited collection addresses some of the most important challenges in contemporary human rights law and practice. Its central theme is the linkage between public finance particularly budget decisions and the realisation or not of economic and social rights. While much academic and political debate on economic and social rights implementation has focused on the role of the courts this work places the spotlight squarely on those organs of government that have the primary responsibility and the greatest capacity for giving effect to such rights namely the elected branches of government. The major actors considered in this book are politicians public servants and civil society with their role in realising economic and social rights the work's key focus. The book thus makes a crucial contribution to remedying the current imbalance in

attention paid by economic and social rights scholars to the legislature and executive vis a vis the judiciary. Featuring pioneering work by leading experts in the field of human rights and public finance this multidisciplinary collection will be of great interest to academics practitioners public servants and students working in the areas of law human rights economics development and political science *Voice of Youth Advocates* ,1983 Subject Guide to Books in Print ,1993 **Water**
