Translating China for Western Readers Ming Dong Gu, 2014-11-06 This book explores the challenges of translating Chinese works, particularly premodern ones, for a contemporary Western readership. Reacting against the cultural turn in translation studies, contributors return to the origin of translation studies, translation practice. By returning to the time honored basics of linguistics and hermeneutics, the book inquires into translation practice from the perspective of reading and reading theory. Essays in the first section of the work discuss the nature, function, rationale, criteria and historical and conceptual values of translation. The second section focuses on the art and craft of translation, offering practical techniques and tips. Finally, the third section conducts critical assessments of translation policy and practice, as well as formal and aesthetic issues. Throughout, contributors explore how a translation from the Chinese can read like a text in the Western reader's own language. *Automatic Control and Mechatronic Engineering II* Hirotaka Tanabe, 2013-09-03 Selected peer-reviewed papers from the 2nd International Conference on Automatic Control and Mechatronic Engineering ICACME 2013 June 21-22 2013 Bangkok Thailand *Ulrich's International Periodicals Directory*, 1998 *Phraseology in Legal and*
