So Lyrical:

Dramatic lyrics. Dramatic romances. Christmas-eve and Easter-day Robert Browning, 1898 **The Grand Old Man and the Great Tradition** Luisa Bienati, Bonaventura Ruperti, 2010-01-01

In 1995 on the thirtieth anniversary of Tanizaki Jun ichir's death Adriana Boscaro organized an international conference in Venice that had an unusually lasting effect on the study of this major Japanese novelist Thanks to Boscaro's energetic commitment Venice became a center for Tanizaki studies that produced two volumes of conference proceedings now considered foundational for all scholarly works on Tanizaki In the years before and after the Venice Conference Boscaro and her students published an abundance of works on Tanizaki and translations of his writings contributing to his literary success in Italy and internationally The Grand Old Man and the Great Tradition honors Boscaro's work by collecting nine essays on Tanizaki's position in relation to the great tradition of Japanese classical literature To open the collection Edward Seidensticker contributes a provocative essay on literary styles and the task of translating Genji into a modern language Gaye Rowley and Ibuki Kazuko also consider Tanizaki's Genji translations from a completely different point of view documenting the author's three separate translation efforts Aileen Gatten turns to the influence of Heian narrative methods on Tanizaki's fiction arguing that his classicism far from being superficial reflects a deep sensitivity to Heian narrative Tzevetana Kristeva holds a different perspective on Tanizaki's classicism singling out specific aspects of Tanizaki's eroticism as the basis of comparison The next two essays emphasize Tanizaki's experimental engagement with the classical literary genres Amy V Heinrich treats the understudied poetry and Bonaventura Ruperti considers a 1933 essay on performance arts Taking up cinema Roberta Novelli focuses on the novel Manji exploring how it was recast for the screen by Masumura Yasuz The volume concludes with two contributions interpreting Tanizaki's works in the light of Western and Meiji literary traditions Paul McCarthy considers Nabokov as a point of comparison and Jacqueline Pigeot conducts a groundbreaking comparison with a novel by Natsume S seki *Joaquín Rodrigo* Raymond Calcraft, Elizabeth Matthews, 2021-11-29 Joaquín Rodrigo Spain's leading composer of the second half of the twentieth century was also a writer of considerable distinction In addition to his 170 compositions in almost every musical form including the world famous Concierto de Aranjuez for guitar and orchestra he published articles and critical reviews throughout his working life This volume makes available Rodrigo's writings to English speaking readers throughout the world The generous selection reveals an outstanding critical mind equally illuminating on the main developments in the history of classical music and its most important composers from Bach and Mozart to Verdi and Puccini as well as Rodrigo's contemporaries Rodrigo's writings also cover many aspects of the culture and music of Spain and the country's major composers as well as being an invaluable guide to an understanding and appreciation of Rodrigo's own works The composer's style of writing is extremely varied by turns incisive eloquent poetic or delightfully humorous Given the worldwide fame and popularity of his music the availability in English of a large number of the composer's many articles and critical reviews will

be of the greatest interest to musicians scholars music critics and music lovers alike **Rethinking Lyric Communities**
Irene Fantappiè, Francesco Giusti, Laura Scuriatti, 2024-10-28 In contemporary Western societies lyric poetry is often considered an elitist or solipsistic literary genre Yet a closer look at its history reveals that lyric has always been intertwined with the politics of community formation from the imagining of national and transnational discursive communities to the use of poetry in episodes of collective action protest and social resistance Poetic forms have circulated between languages and traditions from around the world and across time But how does lyric poetry address or even create communities and of what kinds This volume takes a global perspective to investigate poetic communities in dialogue with recent developments in lyric theory and concepts of community In doing so it explores both the political potentialities and the perils of lyric poetry

Aristophanes Carlo Ferdinando Russo, 1997 Carlo Ferdinando Russo's book has been a seminal work on Aristophanes since its publication in Italy in 1962 In his detailed analysis Russo considers the plays as libretti for actors and singers rather than as mere texts and never loses sight of the stage This is the classic book about Aristophanes Now finally available in English and much updated it is essential reading for any student of Athenian comedy **The Spectator**, 1896 **A Body of Vision** R. Bruce Elder, 1998-10-14 Elder examines how artists such as Brakhage Artaud Schneemann Cohen and others have tried to recognize and to convey primordial forms of experiences He argues that the attempt to convey these primordial modes of awareness demands a different conception of artistic meaning from any of those that currently dominate contemporary critical discussion By reworking theories and speech in highly original ways Elder formulates this new conception His remarks on the gaps in contemporary critical practices will likely become the focus of much debate
