Sarah Gorst,2013-06-01 This is the ultimate pocket book guide to surviving Australia with a range of interesting tips and tricks on what to do if troubles arise in the land down under *The Dominion of Australia* W. H. L. Ranken,1874 An account of the pastoral and agricultural industries and of trade and banking in Australia *How to Survive Traveling in Australia* Rainer Krauhs,2016-07-28 While I traveled Australia I was a very naive person Only in retrospect I realized that many times I had gotten myself into dangerous situations and only got through them thanks to luck intuition and well meaning fellow people This book contains my first hand advice to support you in returning from traveling safely healthy and above all alive Each advice is illustrated with tales and anecdotes about how I learned it Also available in German ISBN 978 1512249958 At first Australia may seem quite homelike to you but this misapprehension can cost your life The greatest source of danger is you yourself and that s what I m starting this book with Further it s about dangers posed by other people by Australia s cliché dangers animals climate natural disasters and from getting around As to not deter you entirely from traveling in Australia this book closes with my most beautiful experiences Here s a summary of the most important advice for readers impatient or just browsing 1 Wear sunscreen like a second skin 2 Keep distance from wild animals 3 Keep distance from where wild animals dwell Which is pretty much everywhere 4 At night refrain from driving your car outside of settlements There s nothing to see anyway and if you do it s likely to be too late 5 Don t listen to racists they re just mean people 6 Take more water with you than you think you need You ll need it 7 Always stay with the car Rescue teams spot stranded cars earlier than lost wanderers 8 Marmite is great It might taste like the opposite of Nutella but it helps to repel bloodsucking insects 9 Read warning signs in detail Someone paid for them just to save you 10 If it s risky at home it s risky any place else 11 Tell someone where you go and when you plan to be there then inform them once you got there 12 Always pack a jumper and a piece of cord **2005 Year Book Australia** ,2004 *How to Survive Travelling in Australia* Rainer Krauhs,2014-04-11

This non fiction book contains hard earned advice on how to travel Australia and return home safe healthy and above all alive Each advice is illustrated with stories during which I learned them They re all from my own travels conducted back when I was still a naive young person The advices are grouped and sorted by source and extent of the hazard The biggest risk gets explained first You Followed by Other people then companies and organizations Finally and only then Australian cliché hazards animals weather geography natural disasters And since you ll be travelling transportation alone with others during hikes or group travel For example I explain how to properly apply sunscreen in short every other hour nighttime excluded and tell about how I got a natural tan while it rained I explain to outsiders why Vegemite is good for you and a funny way to spot the non initiated Don t drive a car at night I did and I m listing everything I barely missed the least of that were animals You might have been told the Police was there to protect and to serve but they don t always live up to that I witnessed them arresting those needing help Don t hitchhike I tried that unsuccessfully for hours even though I were in busy places and I m

telling you about that so you won't get lost in remote Australia or meet a serial killer. Animals aren't accustomed to meeting humans since the country is so spacious so they just treat people like terrain and run across them. Road Trains aren't long trucks but deadly avalanches unless one makes a step to the side. And I explain the importance of carrying sufficient water because the Outback isn't just blue skies and wide open space but the largest sauna in the world. In short. Although Australia seems to be like home it is not. This misapprehension can cost you your life. Finally in order not completely deter the reader from traveling I'm recounting several good experiences. For example about the drunken gargantuan Aborigines who found my tiny elderly mother who got lost at night when visiting and how they carefully guided her like a child. And about three tourists standing alone at night in the middle of the desert with a fresh glass of champagne under the stars. For readers impatient or just browsing I here summarize advice I deem most important. Take preventive measures. What is unsafe to do at home is unsafe away from home. Let someone you trust know where you're going so they can alert someone should you not arrive as planned. Tell them who to call and then contact them when you're back in safety. Read warning signs and follow their advice. Someone spent money and effort to put them there to save you. Recognize places and situations where no warning sign has been put up but should have been. Drink plenty of water and bring sufficient supplies. Wear sunscreen. Bring a jumper.
