**Architectural Images in Roman State Reliefs, Coins, and Medallions** Melanie Dara Grunow, 2002 Depictions of architecture in the official state reliefs coins and medallions of the Roman emperors have much to reveal about how the Romans conceptualized and manipulated the urban environment of the city of Rome for symbolic and ideological purposes Such images have always been analyzed for the valuable evidence they provide concerning the original appearance of badly damaged and lost structures But to consider the architectural images in the background of figural scenes depicting rituals and historic events primarily as topographic evidence does not do them justice In this dissertation I place architectural backgrounds in their contexts within compositions within the state imagery of the Roman emperors and within the topography of Rome **A Catalogue of the Ancient Sculptures Preserved in the Municipal Collections of Rome**
