The Afterdeath:

The Necromantic State Irina R Troconis, 2025-02-21 In the spring of 2013 television across Venezuela announced the death of then president Hugo Chavez leader of the Bolivarian Revolution and key political actor in Latin America's turn to the left Chavez's death however was not the end of Chavez's life In *The Necromantic State* Irina R Troconis examines how Chavez as a specter has lingered in Venezuela's public private and digital spaces Focusing on contemporary Venezuela and drawing from a diverse corpus that includes tattoos toys memes graffiti and a hologram haunting the streets of downtown Caracas Troconis contends that in moments of failed transitions political tensions and crises of legitimacy the state brings the dead back to life to negotiate the terms of its survival By showing how this necromantic performance enables the state's material and visual manifestations in public and private spaces Troconis untangles a sociopolitical moment in which the ghostly acts as the affective social and political force that grounds state authority and ensures the preservation of the status quo as it circumscribes acts of political imagination and limits popular resistance

Finding Hope When a Child Dies Sukie Miller, 2002-08-12 A renowned psychotherapist offers parents who have suffered the death of a child a new context for understanding and coping with their loss Miller draws on years of research to present a wide ranging look at the rituals parents practice around the world to understand both why their child has died and to find a comforting explanation for what happens to children after death

On Our Way Robert Kastenbaum, 2004-05-20 How do our ideas about dying influence the way we live Life has often been envisioned as a journey the river of time carrying us inexorably toward the unknown country and in our day we increasingly turn to myth and magic ritual and virtual reality cloning and cryostasis in the hope of eluding the reality of the inevitable end In this book a preeminent and eminently wise writer on death and dying proposes a new way of understanding our last transition A fresh exploration of the final passage through life and perhaps through death his work deftly interweaves historical and contemporary experiences and reflections to demonstrate that we are always on our way Drawing on a remarkable range of observations from psychology anthropology religion biology and personal experience Robert Kastenbaum re-visions life's forward looking progress from early childhood bedtime rituals to the many small rehearsals we stage for our final separation Along the way he illuminates such moments and ideas as becoming a corpse person going down to earth or up in flames respecting or abusing and eating the dead coping with too many dead conceiving and achieving a good death undertaking the journey of the dead and learning to live through the scrimmage of daily life fully knowing that Eternity does not really come in a designer flask Profound insightful often moving this look at death as many cultures await it or approach it enriches our understanding of life as a never ending passage
