The Age Of Ambition:

Political Parties and the Winning of Office Joseph A. Schlesinger, 1991 This book offers an integrated theoretical perspective for explaining political party operations. Schlesinger examines the distinctive structure of the party organization, the nature of its collective outputs and the direct and indirect rewards it offers participants. He also develops the impact of political ambitions and the structure of political opportunities and electoral arrangements on party capabilities. Schlesinger concludes by looking at the changing multinuclear party and the implications of his theory for comparative research. The comparative potential of the theory is demonstrated through the construction of a typology of parties based on officeholders age and career paths for five Western democracies ISBN 0 472 10202 8 37 50

Aging and Political Leadership Angus McIntyre, 1988-09-13 The final part of this book takes an in depth look at Ronald Reagan. His advanced age is not unusual in a political leader. Other heads of government in the post war world have been as old as or even older than he when they held office for example Churchill, In, Chiang Kai shek, Nehru, Salazar, De Gualle, Kenyatta, Tito, Mao, Zedong, Adenauer and Ulbricht. The large number of names gives the impression that contemporary leadership is gerontocracy. The book is divided into three sections. The first two examine middle age and old age with each section offering numerous case studies from a variety of countries.

Age of Ambition: Chasing Fortune, Truth, and Faith in the New China Evan Osnos, 2014-05-13 Pulitzer Prize in General Nonfiction finalist. Winner of the 2014 National Book Award in nonfiction. As the Beijing correspondent for The New Yorker, Evan Osnos was on the ground in China for years, witness to profound political, economic, and cultural upheaval. Age of Ambition provides a vibrant, colorful, and revelatory inner history of China during a moment of profound transformation. From abroad, we often see China as a caricature: a nation of pragmatic plutocrats and ruthlessly dedicated students destined to rule the global economy or an addled Goliath riddled with corruption and on the edge of stagnation. What we don't see is how both powerful and ordinary people are remaking their lives as their country dramatically changes. In Age of Ambition, Osnos describes the greatest collision taking place in that country: the clash between the rise of the individual and the Communist Party's struggle to retain control. He asks probing questions: Why does a government with more success lifting people from poverty than any civilization in history choose to put strict restraints on freedom of expression? Why do millions of young Chinese professionals fluent in English and devoted to Western pop culture consider themselves angry youth dedicated to resisting the West's influence? How are Chinese from all strata finding meaning after two decades of the relentless pursuit of wealth? Writing with great narrative verve and a keen sense of irony, Osnos follows the moving stories of everyday people and reveals life in the new China to be a battleground between aspiration and authoritarianism in which only one can prevail. An Economist Best Book of 2014. Winner of the bronze medal for the Council on Foreign Relations 2015 Arthur Ross Book Award.
