Resources in Education, 1991-04 **El-Hi Textbooks in Print**, 1976 **Mathematical Reviews**, 2006 **College Algebra** Robert Blitzer, 2004 This book fosters the development of problem solving skills critical thinking and communication of mathematical ideas. Subjects covered include Equations, Inequalities and Mathematical Models, Functions and Graphs, Modeling with Polynomial and Rational Functions, Exponential and Logarithmic Functions, Matrices and Linear Systems, and Conic Sections and Nonlinear Systems. **Modules** Harold David Black, John Hall, 1991 The changes in teaching, learning and assessment brought about by the introduction of the National Certificate in Scotland were assessed. Data were collected through interviews with and a survey of 511 teaching staff, 398 responses and 1 646 students, 1 277 responses in a number of colleges throughout Scotland and a survey of 344 employers, 68 usable responses. Teaching staff and employers also made additional comments on the National Certificate. Findings indicated that employers liked the emphasis on practical and applied learning. Staff and students indicated the importance of teaching more than was covered in the learning outcomes but few staff believed that it was being achieved. Employers liked the flexibility of negotiating programs to meet their needs but small employers seemed to find it difficult to take advantage of flexibility. Some data suggested that employers and employees were less than enthusiastic about being involved in training. Employers believed that in-house training met present and future needs of the company and college based training was geared to future needs. Staff claimed to be using student-centered techniques and welcomed the wider use of a variety of teaching methods. Students felt that the teaching methods used were interesting and motivating. Some employers were concerned that the assessment system did not pose a sufficient challenge to students. Students liked the diagnostic approach to assessment. Staff had some reservations about assessment. YLB
