Reason explains how existentialism is an argument for how literature can take on philosophical form not as formal argument but as persuasive narrative Over the objections of even those who study Sartre Darnell uses Sartre's *The Age of Reason* as a model and shows how his literary output was a legitimate philosophical inquiry In addition to the Darnell piece the volume boasts a series of outstanding and innovative works by scholars in the field Taken together as a whole these authors not only illustrate the moral consequences of an original choice but oblige the reader to explore the ramifications of such a choice in one's own life
