Yoder, 2024-01-01 Instrumentalization of the wartime past for political gain is the subject of this study of eleven World War II commemorations Using a comparative conceptually original approach Yoder identifies the actors who manipulate memory surrounding wartime anniversaries such as the bombing of Dresden and ceremonies to honor fallen soldiers and fascist collaborators The cases of memory contestation span three geographic regions Western Europe Eastern Europe and Russia recognizing that each developed distinctive interpretations of the war and different patterns of memory politics This empirically rich study reveals the grievances that motivate memory challengers and their strategies for shaping the commemoration discourses and rituals The memory challengers toolkit includes varieties of emotional manipulation subtle distortion revisionism and full scale denial The study finds that while there are differences in context and strategy across cases and regions there are also areas of convergence Moreover a memory challenge in one country can spill over into others with serious consequences for foreign relations While World War II Memory and Contested Commemorations in Europe and Russia deals with debates and narratives about events in the last century its focus is on power persuasion and identity in the present **With Courage: The U.S. Army Air Forces in World War II**, *Structural Changes in West German Agriculture* Elfriede Anne Krause, 1972 **Hearings** United States. issues and clarify the interconnection between the modern presidency and the nation's frustrating tragic and humiliating failure in Southeast Asia. Although other histories have been written about the Vietnam experience, this book is the first systematic and comparative survey on presidential leadership as it relates to the war issue. It is organized by presidential administrations, giving a detailed examination of each president's decisions and policies. Based on the most recently opened archival sources, the essays provide a framework on which to hang the kaleidoscopic events of the war.

But by the mid-19th century, the emergence of massive armies and advanced weaponry and the concomitant decline in the effectiveness of cavalry had diminished the practicality of pursuit, producing campaigns that bogged down short of decisive victory. Great battles had become curiously indecisive; decisive campaigns virtually impossible.
