the digital computer in obtaining the numerical solution of numerical problems its influence in the formulation of new and old scientific problems in new terms and to some of the effects of the computer revolution on educational and social systems The new opportunities for mathematical research presage Bellman concludes a renaissance of mathematics in human affairs by involving it closely in the problems of society **U.S. Government Research Reports**, 1964 Applied dynamic

Dynamic Linear Programming Problems Richard Bellman, 1951 A study is made of a class of mathematical problems connected with physical situations which require that a finite or unbounded sequence of operations be performed for the purpose of achieving a desired result The only case considered here is that in which each operation performs a mapping of the parametric space onto itself Author **Dynamic Programming** Richard Ernest Bellman, 1965 **Bulletin Du Centre International Provisoire de Calcul** Provisional International Computation Centre, 1958
