Tether Poems:

The Tether Carl Phillips, 2014-09-02 Graceful and resonant new work by a lyric poet at the height of his skill Like something broken of wing lying there Other than breathing s rise catch release a silence as of some especially wounded animal that nevertheless still is conscious you can see straight through the open eye to where instinct falters because for once it has come divided from Chamber Music In the art of falconry during training the tether between the gloved fist and the raptor s anklets is gradually lengthened and eventually unnecessary In these new lyric poems Carl Phillips considers the substance of connection between lover and beloved mind and body talon and perch and its the cable of mutual trust between soaring figure and shadowed ground Contemporary literature can perhaps claim no poetry more clearly allegorical than that of Carl Phillips whose four collections have turned frequently to nature myth and history for illustration still readers know the primary attributes of his work to be its physicality grace and disarming honesty about desire and faith In *The Tether* his fifth book Phillips s characteristically cascading poetic line is leaner and more dramatic than ever *Tether* Kirsten

Dierking, 2013 Poetry In her third book of poems Kirsten Dierking explores the way our everyday desires shape themselves into the miraculous like antlers branched in sprays of bone against the sky In selecting Dierking s work for a McKnight Artist Fellowship three time National Book Award finalist Marilyn Nelson wrote I found these slight reticent poems tender and thoughtful They demonstrate the virtue of withholding showing that sometimes less is definitely more *TETHER* is an exploration of fluid unseen grace as it manifests around us building an uncanny and potent now **The Plays and Poems**

of William Shakspeare: Romeo and Juliet. Hamlet. Othello William Shakespeare, 1790 **Tether** Lisa Fay Coutley, 2020 Poetry Women s Studies In *TETHER* a spacecraft of a book superbly conceived and assembled Lisa Fay Coutley engineers both recovery and healing in poems that swerve emotionally between the landing bays of grief longing and wonder A bright hunger constellates around these poems but so too the immensities of love *TETHER* is a burning inquiry into the miracle of being here on earth and what keeps us fastened to each other for better or worse Major Jackson Lisa Fay Coutley s *TETHER* is characterized by a compressed tension each line each word hitched to the next quivering with the effort to remain connected and with the opposing desire to be released The image of the tether accrues intensity in the course of the book astronaut tethered to the ship poet to the poem mother to the homeless addict child and child to the mother and in the space between the two great opposing poles is God who learns in that chasm wonder there are no conventional false resolutions to be had Every event that s saved my life has nearly killed me the speaker declares and I would rather live with my burning than sleep with my dead This is a far reaching book a political book a deeply personal and heroic book Its thesis is reflected in its enviably honed diction Mystery is her bitch the speaker writes of the eclipsing sun The same is true of Lisa Fay Coutley and the ravishing poems of tether Diane Seuss *TETHER* is a book of distances and intimacies of letters never sent and dream talks and delayed communiques It is a study of distance between us between an astronaut and a poet

between lovers between ourselves and each other ourselves and ourselves We are the beached boat with a hole in its hull admits the poet Each of us even as baby in a womb is a cloud And yet there is so much love And yet everything that happens happens for a purpose And when one turns worthy a giant squid washes ashore It is this knowing this insight into our distances of years of geography of a space of a single day here that I find compelling how far must you back away from yourself to see yourself as the Astronaut sees Earth Beautiful work Ilya Kaminsky Just over a full column of definitions for tether in the OED among which are those that suggest diametrically opposite forms of fastening It's fascinating to read through them but not nearly so compelling as it is to read the poems in Lisa Fay Coutley's TETHER We are tied ensnared and attached in an especially intimate sense of that word to everything that matters which Coutley knows and makes us see and in the richest sense of this word feel This is a superb book of poems Robert Wrigley Is it desire wonder duty or memory that keeps us most firmly tethered to the world where truth is every bird starving and we live in constant awareness of all the forces that threaten to break the bonds between us and our loved ones A mother's death a son's drug addiction the disastrous world news filtered daily through the internet how do we reconcile the painful events that define our existence with our hope for a more secure future Through sinewy sometimes hallucinogenic syntax that threatens to but never does spin out of control TETHER's poems examine a contemporary and very human paradox in which we long to absent ourselves from our grief while also needing to document our losses so as to ensure we won't forget TETHER reminds us that we are formed as much from pain as from delight and that in her ability to look back upon her past upon today's terrible and compelling news the contemporary poet is like an astronaut able to regard the world from a great height a witness to what most of us cannot bear to see Paisley Rekdal
