**The Nature of Mass Poverty** John Kenneth Galbraith, 1979 Originally given as lectures at the Graduate Institute of International Studies University of Geneva and at Radcliffe Institute      **Property, Institutions, and Social Stratification in Africa** Franklin Obeng-Odoom, 2020-03-26 In this book Franklin Obeng Odoom seeks to debunk the existing explanations of inequalities within Africa and between Africa and the rest of the world using insights from the emerging field of stratification economics Using multiple sources including archival and historical material and a wide range of survey data he develops a distinctive approach that combines traditional institutional economics such as social protection and reasonable value property and the distribution of wealth with other insights into Africa's development While looking at the Africa wide situation Obeng Odoom also analyses the experiences of inequalities within specific countries he primarily focuses on Ghana while also drawing on experiences in Botswana and Mauritius Comprehensive and engaging **Property Institutions and Social Stratification in Africa** is a useful resource for teaching and research on Africa and the Global South      [Handbook on the History of Economic Analysis Volume III](#) Gilbert Faccarello, Heinz D. Kurz, 2016-07-27 This unique troika of Handbooks provides indispensable coverage of the history of economic analysis Edited by two of the foremost academics in the field the volumes gather together insightful and original contributions from scholars across the world The encyclopaedic breadth and scope of the original entries will make these Handbooks an invaluable source of knowledge for all serious students and scholars of the history of economic thought      **Structural Adjustment and Mass Poverty in Ghana** Kwabena Donkor, 2019-01-22 First published in 1997 this volume looks at the rationale for the implementation of and the economic and social effect of the World Bank Structural Adjustment Policy SAP in Ghana from the early 1980s to the early 1990s It shifts the focus from a primarily economic evaluation of these programmes and includes issues such as their impact on vulnerable groups within the Ghanaian society and on poverty in general Therefore it must be asked whether the ordinary Ghanaian has gained anything from any wealth creation in Ghana The book will be useful for both academic and policy purposes      **Rural Poverty and Integrated Rural Development Programme** Sawalia Bihari Verma, 1998      *The Politics of Inequality* Michael Thompson, 2007 Since the early days of the American republic political thinkers have maintained that a grossly unequal division of property wealth and power would lead to the erosion of democratic life Yet over the past thirty five years neoconservatives and neoliberals alike have redrawn the tenets of American liberalism Nowhere is this more evident than in our current mainstream political discourse in which the politics of economic inequality are rarely discussed In this impassioned book Michael J Thompson reaches back into America's rich intellectual history to reclaim the politics of inequality from the distortion of recent American conservatism He begins by tracing the development of the idea of economic inequality as it has been conceived by political thinkers throughout American history Then he considers the change in ideas and values that have led to the acceptance and occasional legitimization of economic divisions Thompson argues that

American liberalism has made a profound departure from its original practice of egalitarian critique. It has all but abandoned its antihierarchical and antiaristocratic discourse. Only by resuscitating this tradition can democracy again become meaningful to Americans. The intellectuals who pioneered egalitarian thinking in America believed political and social relations should be free from all forms of domination, servitude, and dependency. They wished to expose the antidemocratic character of economic life under capitalism and hoped to prevent the kind of inequalities that compromise human dignity and freedom, the core principles of early American politics. In their wisdom is a much broader, more compelling view of democratic life and community than we have today, and with this book Thompson eloquently and adamantly fights to recover this crucial strand of political thought. Gilder,1993 A worldwide bestseller when first published in 1981 Gilder s classic was returned to print with a new introduction that reminds us how far we have come and how far we have to go Centralized economic planning he argues has failed because it assumes wealth is tangible and limited Capitalism recognizes the truth that wealth is transitory that its source is creativity courage and technological adventure Without entrepreneurs there is no wealth to distribute *The English Poor Law System, Past and Present* Paul Felix Aschrott,1888 *National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two* Dr. Dan Mou,2017-01-12 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigerias population still

living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians dont write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of Abuja High Court and former dean faculty of law University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria
