Liying Dong

The New Federalism Can The States Be Trusted:

The New Federalism John A. Ferejohn, Barry R. Weingast, 1997 In recent years the growth of the federal government and its failure to resolve many major problems have ignited a serious new debate Some scholars and policymakers suggest that reinvigorating American federalism returning a variety of regulatory and police powers back to the states may better solve many of these problems Others claim that it will gut policies or cripple national regulation This book confronts these issues as it investigates the central question of the new American federalism whether it will yield better government In doing so it poses the provocative question Can the states be trusted

Social Welfare and the New Federalism Paul Lawrence Terrell, 1976 *Intergovernmental Perspective*, 1980 Each issue concentrates on a different topic

American Domestic Priorities John M. Quigley, Daniel L. Rubinfeld, 2022-04-29 Large deficits increased military and social security expenditures and the New Federalism have put the future of many domestic programs in doubt How would further cuts in federal funding for these programs affect our society Can such cuts significantly reduce the federal deficit Can Administration attempts to transfer public functions from the federal government to the states succeed In this volume a group of prominent economists many of whom have served in Republican or Democratic administrations raise and answer questions fundamental to the design of domestic policy They scrutinize the effects of recent policies on poverty urban transportation systems the supply of qualified teachers the cost and continuing racial segregation of housing and efforts to control pollution and improve the environment they describe the likely results of further funding cuts in each area and propose imaginative alternatives for reducing the federal deficit This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985

Congressional Record United States. Congress, 1982 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873

The Journal of State Government, 1989

The Disputed Presidential Election of 2000 E. D. Dover, 2003-05-30 Provides reference tools on the controversial 2000 presidential election including an overview chronology annotated bibliography primary documents biographies vote totals discussion of the electoral college political legal issues the election's long term significance

Conservation Trusts Sally K. Fairfax, Darla Guenzler, 2001 In the wake of the Exxon Valdez oil spill a conservation trust helped stabilize and regenerate the damaged area When bird habitats along the Platte River were threatened by Grayrocks Dam a similar trust came to their rescue And if a family wants to protect its land for future generations establishing a trust may be the best solution For more than a century

bequests of land and funds for environmental protection have been common but in recent decades the trusts used to address conservation issues and resolve environmental disputes have diversified and grown significantly This book examines a variety of conservation organizations built on or close to trust principles some government creations some private some combinations of the two to explain how conservation trusts are created and how they work It explores strengths and weaknesses of the trust concept considers the widespread use of land trusts and presents case studies that both illustrate successes and give instructive examples of potential pitfalls Drawing on cases from Maine to Hawaii the authors examine the different kinds and configurations of trusts They consider government trusts that blend federal state and local agencies into a single entity or that derive funding from outside legislative and executive channels trusts established by government and private cooperation to share responsibility for jointly held and managed resources and trusts established by private organizations and families For each type they explain why each is created how it operates and whether it has been proven effective They also address the important issue of accountability and consider when a trust is not the answer to a problem As more Americans reject federal control of land in favor of local determination land trusts have become the most popular tool for the preservation of land habitats and species And as the sharing of authority among public private and diverse government partners becomes more prevalent sound guidelines for establishing effective trusts are critical This book shows how the trust template provides an invaluable approach for future conservation efforts and is a primer for anyone involved in environmental management

Point-counterpoint, 1979 *Journal of Urban Law*, 1974 **Environmental Politics and Policy in the West, Revised Edition** Zachary A. Smith, John Freemuth, 2007-08-30 Zachary A Smith and John Freemuth bring together a roster of top scholars to explicate the unique policies and politics in the West as well as other key questions in this new edition of *Environmental Politics and Policy in the West* which was first published in 1993 This thoroughly revised and updated edition offers a comprehensive and current survey **Journal of Economic Literature**, 1999

Performance in American Bureaucracy Robert C. Fried, 1976 *Environmental Economics and Public Policy* Robert N. Stavins, 2000 Robert N Stavins has emerged as one of the most influential voices in environmental economics over the last decade and a half These 23 essays on environmental economics and policy written by Professor Stavins and his co authors over the period 1988 1999 originally appeared in a diverse set of leading scholarly periodicals and are here collected for the first time The book is divided into seven parts overview benefits and costs of environmental regulation normative analysis of policy instruments positive analysis of policy instruments environmental technology innovation and diffusion causes and consequences of land use changes and global climate policy The book begins with an introductory essay in which Stavins reflects on the professional path that led to his research and writing and identifies common themes that emerge from this period of research Students scholars practitioners and policymakers will find this volume a valuable and very useful addition to their collection
