

"They turned it into a desert and called it peace."

—Tacitus, describing the Roman Empire.

Analyzing the NATO bombing, Noam Chomsky challenges the New Humanism: Is it guided by power interests, or by humanitarian concern? Is the resort to force undertaken in the name of principles and values? Or are we witnessing something more grim and familiar?

With a powerful grasp of history—and an incisive argument about its relevance in this "new era"—Chomsky peels back historical claims that the United States and its allies fight for a world where those responsible for ethnic cleansing have nowhere to hide.

The New Military Humanism reveals instead a world where victims of human rights violations are either worthy or unworthy. In the case of Turkey, its Kurdish victims of ethnic cleansing are so unworthy that we sell arms to our paying ally to help it accomplish the task. Meanwhile, Serbia, a disorderly miscreant impeding the institution of the U.S.-dominated global system, is the target of impassioned arguments — and bombs — that the UN Declaration on Human Rights must be enforced.

Chomsky seeks to overcome what George Orwell called a sinister, largely voluntary form of literary censorship by the well-educated with the "general tacit agreement that 'it wouldn't do' to mention that particular fact."

With his uniquely powerful style, Chomsky reviews the many facts that just won't do. From administrative knowledge that bombing would escalate Serb atrocities, to the opportunities for diplomacy passed over in favor of war, the facts are so numerous as to warrant a chapter on the "blatant syndrome": an affliction necessary to hold the official version of reality in place.

"A persuasively argued critique...of NATO's disastrous Kosovo action. [It] reveals...deliberately bad logic, catastrophically infamous results, and frightening power allied with both violence and catatony...a rare no responsible citizen should avoid confronting. Indispensable."

—Edward W. Said

"A brilliant discussion of the US/NATO evasion of diplomacy...An eye-opener and essential work."

—Edward S. Herman

The New Military Humanism Lebons From Kosovo:

The New Military Humanism Noam Chomsky, 1999 To guide us all through the three star disasters of the Bush years I can think of no better pilot Alexander Cockburn CounterPunch

The Essential Chomsky Noam Chomsky, 2011-05-10 The seminal writings of America's leading philosopher linguist and political thinker the foremost gadfly of our national conscience The New York Times For the past fifty years Noam Chomsky's writings on politics and language have established him as a preeminent public intellectual as well as one of the most original political and social critics of our time Among the seminal figures in linguistic theory over the past century Chomsky has also secured a place among the most influential dissident voice in the United States Chomsky's many bestselling works including *Manufacturing Consent* *Hegemony or Survival* *Understanding Power* and *Failed States* have served as essential touchstones for activists scholars and concerned citizens on subjects ranging from the media and intellectual freedom to human rights and war crimes In particular Chomsky's scathing critique of the US wars in Vietnam Central America and the Middle East have furnished a widely accepted intellectual premise for antiwar movements for nearly four decades *The Essential Chomsky* assembles the core of his most important writings including excerpts from his most influential texts over the past half century Here is an unprecedented comprehensive overview of the thought that animates one of the West's most influential intellectuals in the cause of peace The Independent Chomsky ranks with Marx Shakespeare and the Bible as one of the ten most quoted sources in the humanities and is the only writer among them still alive The Guardian Noam Chomsky is one of the most significant challengers of unjust power and delusions he goes against every assumption about American altruism and humanitarianism Edward Said A rebel without a pause Bono

Challenges for Humanitarian Intervention C. A. J. Coady, Ned Dobos, Sagar Sanyal, 2018-05-10 Ten new essays critique the practice armed humanitarian intervention and the Responsibility to Protect doctrine that advocates its use under certain circumstances The contributors investigate the causes and consequences as well as the uses and abuses of armed humanitarian intervention One enduring concern is that such interventions are liable to be employed as a foreign policy instrument by powerful states pursuing geo political interests Some of the chapters interrogate how the presence of ulterior motives impact on the moral credentials of armed humanitarian intervention Others shine a light on the potential adverse effects of such interventions even where they are motivated primarily by humanitarian concern The volume also tracks the evolution of the R2P norm and draws attention to how it has evolved for better or for worse since UN member states unanimously accepted it over a decade ago In some respects the norm has been distorted to yield prescriptions and to impose constraints fundamentally at odds with the spirit of the R2P idea This gives us all the more reason to be cautious of unwarranted optimism about humanitarian intervention and the Responsibility to Protect
