Hodgson, 2016-03-24 Ferdinand Christian Baur 1792 1860 one of the great innovators in the study of the New Testament argued that each of its books reflects the interests and tendencies of its author in a particular religio historical milieu A critique of the writings must precede any judgments about the historical validity of individual stories about Jesus in the Gospels Thus Baur could move beyond the impasse created by Strauss s Life of Jesus Baur demonstrated that the Gospel of John is not a historical document comparable to the Synoptic Gospels and cannot be used to reconstruct the teaching of Jesus and that the Synoptic Gospels must be read critically and selectively He applied the same principles to the Epistles arguing that only four are genuinely Pauline Galatians 1 and 2 Corinthians and Romans Baur s Lectures on New Testament Theology delivered in Tbingen during the 1850s summarize thirty years of his research The lectures begin with an Introduction on the concept history and organization of New Testament theology Part One is devoted to the teaching of Jesus which Baur finds most reliably in Matthew Part Two contains the teaching of the Apostles in three chronological periods The first period presents the theological frameworks of the Apostle Paul and the Book of Revelation the second period the frameworks of Hebrews the Deutero Pauline Epistles James and Peter the Synoptic Gospels and Acts and the third period those of the Pastoral Epistles and the Gospel of John **The Letters of St. Antony** Samuel Rubenson, 1995-01-01 This book revolutionizes our understanding of the life and thought of the great anchorite father of the Egyptian desert It is a signal contribution to our knowledge of Egyptian Christianity in the third and fourth centuries Birger Pearson Institute for Antiquity and Christianity Samuel Rubenson by means of a fresh analysis of the letters of St Antony exposes the distortion of the picture of early Christian monks as unlettered and primitive Rubenson describes the desert monasteries as centers of theological reflection in Egypt showing how they combined the speculative philosophy of the Greeks and the biblical tradition Included in this volume is a new translation of the letters themselves which are shown to be authentic and an important source for the study of the desert fathers and the early monastic tradition The later image of Antony is demonstrated to be influenced by church politics of the latter part of the fourth century Samuel Rubenson is Associate Professor at Lund University Lund Sweden
The Writings of the Apostle John John Tindall Harris, 1889 *The Letters of an Unexpected Mystic* Robert D.

Flanagan,2022-07-20 The apostle Peter is a pillar of the church whose writing has been overlooked until recently when scholarship remedied this gap significantly elevating Peter's letters. However, one critical area has been omitted. Within the Petrine writing is a robust, empowered and beautiful mystical theology which makes Peter an unexpected but vital Christian mystic. In exploring his love of artwork, German theologian and priest Romano Guardini developed the Threefold Seeing which has been brought to light by Yvonne Dohna-Schlobitten of the Pontifical Gregorian University. His unique method of viewing the artist, artwork and observer develops a way of encountering the world and word. Instead of looking at the world or the biblical text through separate vantage points, the Threefold Seeing integrates all disciplines under the greater view of God, the artist of all creation. The Letters of an Unexpected Mystic employs Guardini's Threefold Seeing to encounter the mystic Peter and the Petrine mystical theology. The result is a book that provides its readers with a means to become the Christian. Karl Rahner wrote about in 1971: "The devout Christian of the future will either be a mystic, one who has experienced something or he will cease to be anything at all."

Mystery of God, Mystery of Christ Ysabel de Andia, 2024-03-28 Now available in English for the first time. Ysabel de Andia's double exploration of Christian and Hindu mysticism provides a valuable addition to the field. Composed from lectures given in Benares in 2015 to priests of the Missions Etrangères de Paris, *Mystery of God, Mystery of Christ* combines the two main research interests that have defined de Andia's career: first, an understanding of Christian mysticism as growing out of the Christian mystery of Christ and the sacrament; and secondly, the relationship between this and Hindu contemplative prayer as articulated by Jules Monchanin. Beginning with the Cappadocian fathers, de Andia traces the developing interpretation of Mystery through Christian thinkers from Origen and Gregory of Nyssa to Basil and Dionysios the Areopagite. From here she begins to dovetail this study with an exploration of Hindu contemplation relating the Carmelite mystic St John of the Cross to the Advaitist tradition, especially as expounded by Shankara. Throughout her masterful understanding of both traditions is apparent. For English readers, her insight will provide a fresh perspective on this lively subject area.

What the Bible Really Teaches Keith Ward, 2004 This prominent theologian adds his contribution to the authority of Scripture debate. An impassioned contribution to the debate about the authority of Scripture, how we read the Bible and how the author believes a fundamentalist reading is unsustainable. This book will infuriate many and delight others and will make a valuable contribution to the debate which we plan to join with voices from many corners. The book works through a series of Bible passages often cited as proof texts and explores how they can be read and how they are used.
