*The Narrative Voice In The Theogony Of Hesiod* Kathryn Stoddard, 2004-01-01 This volume analyzes the narrative structure of the Theogony to support the argument that this poem is a didactic poem explaining the position of man in the divine universe It discusses how Hesiod employs narratological devices to achieve his purposes

**Euripides and the Poetics of Nostalgia** Gary S. Meltzer, 2006-10-16 Branded by critics from Aristophanes to Nietzsche as sophistic iconoclastic and sensationalistic Euripides has long been held responsible for the demise of Greek tragedy Despite this reputation his drama has a fundamentally conservative character It conveys nostalgia for an idealized age that still respected the gods and traditional codes of conduct Using deconstructionist and feminist theory this book investigates the theme of the lost voice of truth and justice in four Euripidean tragedies The plays unstable mix of longing for a transcendent voice of truth and skeptical analysis not only epitomizes the discursive practice of Euripides era but also speaks to our postmodern condition The book sheds light on the source of the playwright s tragic power and enduring appeal revealing the surprising relevance of his works for our own day

[Aristotle on Sexual Difference](#) Marguerite Deslauriers, 2022 Aristotle on Sexual Difference is a book about Aristotle s understanding of the differences between male and females and men and women It considers what he says about biological differences between the sexes and about psychological differences that he thinks justify different political roles for men and women It discusses the authors who preceded Aristotle highlighting that they

treat sexual difference as a misfortune and women as an evil inflicted on men This book demonstrates that Aristotle rejects that view and that he argues for the benefit of sexual difference to animal species and the value of women to their political communities It also traces a connection between Aristotle's accounts of the physiological defects of women and of their political limitations      *The Narrative Voice in the Theogony of Hesiod* Kate Stoddard, 2000      *Poetics before Plato* Grace M. Ledbetter, 2009-01-10 Combining literary and philosophical analysis this study defends an utterly innovative reading of the early history of poetics It is the first to argue that there is a distinctively Socratic view of poetry and the first to connect the Socratic view of poetry with earlier literary tradition Literary theory is usually said to begin with Plato's famous critique of poetry in the Republic Grace Ledbetter challenges this entrenched assumption by arguing that Plato's earlier dialogues *Ion* *Protagoras* and *Apology* introduce a distinctively Socratic theory of poetry that responds polemically to traditional poets as rival theorists Ledbetter tracks the sources of this Socratic response by introducing separate readings of the poetics implicit in the poetry of Homer Hesiod and Pindar Examining these poets theories from a new angle that uncovers their literary rhetorical and political aims she demonstrates their decisive influence on Socratic thinking about poetry The Socratic poetics Ledbetter elucidates focuses not on censorship but on the interpretation of poetry as a source of moral wisdom This philosophical approach to interpreting poetry stands at odds with the poets own theories and with the Sophists treatment of poetry Unlike the Republic's focus on exposing and banishing poetry's irrational and unavoidably corrupting influence Socrates theory includes poetry as subject matter for philosophical inquiry within an examined life Reaching back into what has too long been considered literary theory's prehistory Ledbetter advances arguments that will redefine how classicists philosophers and literary theorists think about Plato's poetics      **Lies and Fiction in the Ancient World** Christopher Gill, Timothy Peter Wiseman, 1993 These essays explore the understanding of the boundary between fact and fiction in Ancient Greece and Rome and considers how far lying was distinguished from fiction in different periods and genres Early Greek poetry Plato and Greek and Roman historiography and novels are covered      *Creations* Sven Rune Havsteen, 2007 The meaning of the noun creation and the verb to create range from the traditional theological idea of God creating ex nihilo to a more recent sense of the process of artistic conception This collection of thirteen essays written by scholars of music literature the visual arts and theology explores the complicated relationship between medieval rituals and theology and the development of an idea of human artistic creation which came to the fore in the sixteenth century The volume concentrates on the period from the Carolingians to the Counter Reformation but also includes some twentieth century musicians Each essay is dedicated to a particular topic concerned with ritual or artistic beginnings inventions harmony and disharmony as well as representations or celebrations of creation Central themes include the interplay of the ideas of God as creator of God acting and recreating in medieval liturgy of God as artist the deus artifex of the Pythagorean cosmology which was occasionally referred to as recently as the early nineteenth century and finally of the homo creator a concept in which man

reflected and eventually replaced God in his artistic creativity This book therefore features new significant individual contributions from a range of scholarly disciplines but taken as a whole it also constitutes a complex interdisciplinary study with large scale historical constructions *American Book Publishing Record* ,2004 **Hesiod and Theognis**,.
