The Study of American Indian Religions Åke Hultkrantz, 1983 This book is a history of the major works on North American Indian religions from the seventeenth century to the present day It provides the most extensive annotated bibliography of Indian religions ever published in a single work ranging from the earliest missionary observers through the development of Boasian anthropology to the latest writings from the new ethnography and the history of religions With its chronological approach the book far more than a mere bibliography it is an invaluable survey of the centuries old interest in and study of spirituality and offers much needed direction to beginning students and scholars alike By pointing to the masterworks in the field by indicating diverse approaches to the topic by suggesting aspects of study hitherto neglected and by demonstrating the value of native American religious scholarship to the study of world religions The Study of North American Indian Religions can stimulate further study of Indian religions Publisher's description

Soens,1999 I the Song is an introduction to the rich and complex classical North American poetry that grew of and reflects Indian life before the European invasion No generalization can hold true for all the classical poems of North American Indians They spring from thirty thousand years of experience five hundred languages and dialects and ten linguistic groups and general cultures But the poems from these different cultures and languages belong to poetry unified by similar experiences and a shared continent Built on early transcriptions of Native American songs and arranged by subject these poems are informed by additional context that enables readers to appreciate more fully their imagery their cultural basis and the moment that produced them They let us look at our continent through the eyes of a wide range of people poets hunters farmers holy men and women and children This poetry achieved its vividness clarity and intense emotional power partly because the singers made their poems for active use as well as beauty and also because they made them for singing or chanting rather than isolated reading Most strikingly classical North American Indian poetry brings us flashes of timeless vision and absolute perception a gulf s wing red over the dawn snow
