The Necessary Jungle Literature And Excess:

On Post-Colonial Futures Bill Ashcroft, 2001-09-01 In this groundbreaking work Bill Ashcroft extends the arguments posed in *The Empire Writes Back* to investigate the transformative effects of postcolonial resistance and the continuing relevance of colonial struggle. He demonstrates the remarkable capacity for change and adaptation emanating from postcolonial cultures both in everyday life and in the intellectual spheres of literature history and philosophy. The transformations of postcolonial literary study have not been limited to a simple rewriting of the canon but have also affected the ways in which all literature can be read and have led to a more profound understanding of the network of cultural practices that influence creative writing.

The Necessary Jungle David Brooks, 1990 Twelve essays by the author of the award winning collection of poems *The Cold Front* and two books of fiction *The Book of Sei* and *TSheep and the Diva*. The essays which were written over a seven year period concern illusion and reality in the written word, the importance and limitations of the study of literature in contemporary society.

Masculinity in Children's Animal Stories, 1888-1928 Wynn William Yarbrough, 2011-07-25 The animal stories produced around the turn of the 20th century have maintained a remarkable hold on the imagination of children worldwide. This book examines the performance of masculinity in these stories, particularly in light of the waning years of Victoria's reign, when changing historical, political, and social pressures altered the definition of masculinity. Topics covered include the roles of violence, rebellion, escape, spirituality, social hierarchies, and law.

Manliness Harvey Claflin Mansfield, 2006-01-01 This is the first comprehensive study of manliness, a quality both bad and good, mostly male, often intolerant, irrational, and ambitious. Drawing from science, literature, and philosophy, Mansfield formulates a reasoned defense of a quality hardly obedient to reason.

The Yellow Lady Alison Broinowski, 1992 *The Yellow Lady* is the first major critique of Australian impressions of Asia. Alison Broinowski argues that Australians have been backward in developing an appropriate image of themselves because of their ignorance of and ambivalence towards Asians. She traces the history of Australian ideas

about Asia and the Pacific from pre colonial time to the present and concludes that some of these perceptions no matter how irrational or archaic continue to underlie the political and economic decisions Australians make about the Asia Pacific region No one has ever looked so exhaustively at Australian images of Asia Alison Broinowski a longtime diplomat and writer about Asian issues identifies these images where they come from and how they have changed or not changed She investigates artists who took an interest in Asia and why they did so They include visual artists novelists film makers composers architects poets potters playwrights photographers puppeteers and choreographers Japan receives the greatest attention as a continuing source of both modernity and tradition Beginning with early Aboriginal contact with Indonesians *The Yellow Lady* shows how chances for harmonious co existence with the neighbourhood were lost in the colonial period Successive wars set back this process of adaptation In the final section as increasing numbers of Asians migrate to Australia and Asian countries become economically dominant Australian images of Asia undergo rapid change Alison Broinowski argues that until Asia is accepted as part of the mainstream of Australian life Australians will remain uncertain about their status and that if Australia's international image is to change it must begin by acknowledging the reality of Asia
