## **The New Authoritarianism In Latin America:**

The New Authoritarianism in Latin America David Collier, Fernando Henrique Cardoso, Joint Committee on Latin American Studies, 1979 While one of the most important attempts to explain the rise of authoritarian regimes and their relationship to problems of economic development has been the bureaucratic authoritarian model there has been growing dissatisfaction with various elements of this model. In light of this dissatisfaction a group of leading economists, political scientists and sociologists was brought together to assess the adequacy of the model and suggest directions for its reformulation. This volume is the product of their discussions over a period of three years and represents an important advance in the critique and refinement of ideas about political development. Part One provides an overview of the issues of social science analysis raised by the recent emergence of authoritarianism in Latin America and contains chapters by David Collier and Fernando Henrique Cardoso. The chapters in Part Two address the problem of explaining the rise of bureaucratic authoritarianism and are written by Albert Hirschman, Jose Serra, Robert Kaufman and Julio Coder. In Part Three Guillermo O'Donnell, James Kurth and David Collier discuss the likely future patterns of change in bureaucratic authoritarianism. Opportunities for extending the analysis to Europe and priorities for future research. The book includes a glossary and an extensive bibliography.

**Bureaucratic-authoritarianism and the Forest Sector in Latin America** George M. Guess, 1984 Comparison of forest policies and industrial policies in nine countries with different political systems in Latin America to test the Rationality Thesis economic theory on which Bureaucratic Authoritarianism is based compares economic growth with policy rhetoric discusses implications for development aid. Bibliography, statistical tables.

**The Transition to Democracy in Latin America** Bruce W. Farcau, 1996-09-24 This book examines the role of the military in the wave of democratization that has swept through Latin America in the past decade. Although much of the leading literature on the transition to democracy recognizes the importance of hardline and softline factions within the military in this process the author takes this study one step further to investigate the motivations of the military officers themselves. Using the cases of Brazil and Bolivia and relying on dozens of interviews with military officers, politicians, jurists and other observers throughout Latin America he determines that the factions' attitudes do not depend primarily on ideological commitment but on the leaders' calculation as to the career benefits to their followers of either supporting or opposing democratization. In terms of policy making it is important to recognize this distinction in order to help preserve the fragile democracies which are already under threat from the military once again.
