**The Global Economic System Since 1945** Larry Allen, 2005 This book describes how after the end of World War II powerful corporations began to lobby governments in an effort to reduce the perceived constraints of regulation Since the 1970s these voices have become increasingly influential as governments worldwide have adopted free market policies reduced economic regulation and promoted the virtues of free enterprise capitalism The Global Economic System since 1945 presents a fresh synthesis of economic history and theory For the specialist it will provide a useful reminder that the economy needs to be looked at from different angles while the general reader will find a fascinating and impartial description of the current state of the global economy as well as hints on what to look for when scanning the economic horizon for signs of inclement weather BOOK JACKET

Education in the industrial and fine arts in the United States. (U.S. dept. of the interior, bureau of educ.). Isaac Edwards Clarke, 1885 All-India Directory of Industrial Establishments, 1978 Japan's ASEAN Policy Sueo Sudo, 2016-05-13 The central puzzle in the study of Japanese foreign policy has been why Japan has continued to play a passive role in international affairs despite its impressive economic and political power Challenging this central puzzle the core argument of this study is to present an alternative path for the study of Japanese foreign policy In fact in recent years Japanese foreign policy has become less dependent on the United States more strategic towards Asia and more energetic towards international and regional institutions One of the main features is multilateralism in Japanese foreign policy as shown by Japan's active participation in the regional institutions In pursuing multilateralism Japan cooperated closely with the only durable regional body in Southeast Asia to wit the Association of Southeast Asian Nations ASEAN Given the fact that East Asian regionalism has been driven by ASEAN it is of utmost urgency to investigate the emerging partnership between Japan and ASEAN The central thesis of this study is thus to put Japan's ASEAN policy into a proper perspective by asserting that Japan's new policy initiatives towards ASEAN are not reactive nor are they exceptions in a broader framework of merely reactive foreign policy
