## **Immersive Storytelling and Spectatorship in Theatre, Museums, and Video**

**Games** Kelly I. Aliano, 2025-02-07 Immersive Storytelling and Spectatorship in Theatre Museums and Video Games is the first volume to explore immersion as it is experienced in all three of these storytelling forms the theatre museums and historic sites and video games. It theorizes what it means for a work to be called immersive and how immersion impacts audience experience in each of these modes. The presentation of story is deepened when it involves the spectator in an immersive way. Author Kelly I Aliano concentrates on the central idea that the use of immersion in each medium allows the story being told to feel present for the spectator. It puts them at the center of the experience making its events for and about them. Throughout the book discusses how immersion is employed to make narrative feel more resonant and relevant for the audience. Analyzing the impact of offering a first hand experience of story events this book looks at how immersive storytelling can highlight the ways in which we can interact with and shape our understandings of ourselves and our society as well as our histories and identities. Ideal for students scholars and researchers of immersive theatre spectatorship museum studies and video game studies this is an innovative study into the power of immersive storytelling across three interactive mediums

**Living History Museums** Scott Magelssen, 2007-02-01 Living history museums are cultural institutions that merge historical exhibits with live costumed performance. While unique and vitally important they often compromise historical accuracy and authenticity for the sake of tourism and entertainment value. Many also pursue methods of performance and historiography that are becoming increasingly outdated. *Living History Museums: Undoing History Through Performance* examines the performance practices used by institutions such as Plimoth Plantation and Colonial Williamsburg and offers a new genealogy of living history museum performance in the U.S. and Europe. Currently existing scholarship on living history museums addresses the subject from a museum studies or anthropology perspective. Author Scott Magelssen however approaches the material from a background in theatre history and theory analyzing living history museums using postmodern methodology. Considering performance as a method for the study of history and exploring emergent non traditional theatrical practices the book offers suggestions for performance in an increasingly postmodern landscape. Concluding with an international listing of living history institutions and a complete list of sources *Living History Museums* is a valuable resource for students and teachers of theatre and performance studies cultural studies folklore popular culture American studies and museum studies

## **Consumed Nostalgia** Gary Cross, 2015-09-08 Nostalgia isn't what it used to be

For many of us modern memory is shaped less by a longing for the social customs and practices of the past or for family heirlooms handed down over generations and more by childhood encounters with ephemeral commercial goods and fleeting

media moments in our age of fast capitalism. This phenomenon has given rise to communities of nostalgia whose members remain loyal to the toys, television and music of their youth. They return to the theme parks and pastimes of their upbringing, hoping to reclaim that feeling of childhood wonder or teenage freedom. Consumed nostalgia took definite shape in the 1970s, spurred by an increase in the turnover of consumer goods, the commercialization of childhood and the skillful marketing of nostalgia. Gary Cross immerses readers in this fascinating and often delightful history, unpacking the cultural dynamics that turn pop tunes into oldies and childhood toys into valuable commodities. He compares the limited appeal of heritage sites such as Colonial Williamsburg to the perpetually attractive power of a Disney theme park and reveals how consumed nostalgia shapes how we cope with accelerating change. Today, nostalgia can be owned, collected and easily accessed, making it less elusive and often more fun than in the past, but its commercialization has sometimes limited memory and complicated the positive goals of recollection. By unmasking the fascinating, idiosyncratic character of modern nostalgia, Cross helps us better understand the rituals of recall in an age of fast capitalism.

[\*\*Museums in Motion\*\*](#) Juilee

Decker, 2024-08-06 This book explores the histories and functions of museums while also looking at the current standing of museums and their ongoing efforts toward relevance, resiliency and future proofing. Section I examines the beginnings of museums, with chapters dedicated to art and design museums, natural history and anthropological museums, science museums, museums focused on history and the past, and children's museums. Emphasis is on museums in the United

States with some historical framing beyond the U S Section II explores the primary functions of museums including conservation exhibition interpretation engagement and service Section III examines museums from within by exploring critical issues and contemporary movements facing museums and our society transparency and openness labor and equity belonging and coalition building risk taking and risk aversion and sustainability and empathy Advocating for change rather than death to museums Museums in Motion demonstrates the very premise that museums have been in motion all along as they have shifted from their rather simple form of a treasury storehouse and tomb to something much more complex by deeply considering where museums have come from where they are today and where they are going Entirely new to this edition Section III Museum Aspirations features five new chapters each centered around topics rather than a museum type or museum function Each topic is meant to be a micro narrative and springboard for a conversation about museums today and their sustainability in the future The chapters examine museums from the inside museum workers and their voices especially as well as power held by people and institutions and DEIA without using those individual words as chapter headings On their own or in conjunction with the chapters in the previous sections of this book these chapters serve as vignettes that can help readers to understand where how and why we need to apply critical lenses to institutions and articulate how doing so helps us to understand this historical moment and ultimately how we can realize resiliency and sustainability for museums and those who make their existence possible *Social Analysis* ,1997 **Vernacular Architecture Newsletter** ,1998
