Aaron Hunter, Martha Shearer

The New Hollywood From Bonnie And Clyde To Star Wars:

The New Hollywood Peter Krämer, 2005 In 1967 Time Magazine's cover featured Bonnie and Clyde 1967 and announced a renaissance in American cinema. The author looks at the influence this generation had on Hollywood at the time not only in the aesthetics and politics of the films but also the changes in the studio system.

Star Wars Will Brooker, 2020-10-01 The release of Star Wars in 1977 marked the start of what would become a colossal global franchise. Star Wars remains the second highest grossing film in the United States and George Lucas's six part narrative has grown into something more a culture that goes far beyond the films themselves with tie in toys, novels, comics, games and DVDs as well as an enthusiastic fan community which creates its own Star Wars fictions. Critical studies of Star Wars have treated it as a cultural phenomenon or in terms of its special effects fans and merchandising or as a film that marked the end of New Hollywood's innovation and the birth of the blockbuster. Will Brooker's illuminating study of the film takes issue with many of these commonly held ideas about Star Wars. He provides a close analysis of Star Wars as a film, carefully examining its shots, editing, sound design, cinematography and performances. Placing the film in the context of George Lucas's previous work from his student shorts to his 1970s features and the diverse influences that shaped his approach from John Ford to Jean-Luc Godard. Brooker argues that Star Wars is not as Lucas himself has claimed a departure from his earlier cinema but a continuation of his experiments with sound and image. He reveals Lucas's contradictory desires for total order and control embodied by the Empire and for the raw energy and creative improvisation of the Rebels. What seemed a simple fairy tale becomes far more complex when we realise that the director is rooting for both sides and this tension unsettles the saga as a whole blurring the boundaries between Empire and Republic, dark side and light side, father and son. In his foreword to this new edition Will Brooker discusses how subsequent films in the series specifically Rogue One 2016 and The Last Jedi 2017 foregrounded and developed the themes of opposition that are at the heart of Star Wars. He shows how Derridean theories of opposites which become undermined and subverted and which change places are made more clear with hindsight and provide us with a useful lens for looking back at the 1977 Star Wars.

Women and New Hollywood Aaron Hunter, Martha Shearer, 2023-05-12 The 1970s has often been hailed as a great moment for American film as a generation of New Hollywood directors like Scorsese, Coppola and Altman offered idiosyncratic visions of what movies could be. Yet the auteurist discourse hailing these directors as the sole authors of their films has obscured the important creative roles women played in the 1970s American film industry. *Women and New Hollywood* revises our understanding of this important era in American film by examining the contributions that women made not only as directors but also as screenwriters, editors, actors, producers and critics. Including essays on film history, film texts and the decade's film theory and criticism, this collection showcases the rich and varied cinematic products of women's creative labor as well as the considerable barriers they faced. It considers both women working within and beyond the Hollywood film industry, reconceptualizing New Hollywood by bringing it into

dialogue with other American cinemas of the 1970s By valuing the many forms of creative labor involved in film production this collection offers exciting alternatives to the auteurist model and new ways of appreciating the themes and aesthetics of 1970s American film Authority and Displacement in the English-Speaking World (Volume II) Florence

Labaune-Demeule,2016-01-14 Whether one thinks of the modern world or of more remote times both seem to have been affected if not moulded by the interaction between the concepts of authority and displacement Indeed political and social sources of authority have often been the causes of major geographical displacements as can be illustrated by the numerous waves of migration which have been observed in the past and which are still present today such as the transportation of slaves from African to American coasts in colonial times If displacement can often be understood as spatial displacement it can also be synonymous with psychological social and even aesthetic displacement for instance through different artistic means or through the use of stylistic discursive devices Displacement also entails dis placement dis location as well as dislocation or chaos This suggests that the etymological meaning of the term authority auctoritas has to be highlighted thus referring to the author of a particular work and to the different manifestations of the authorial persona in a work of art This collection of essays in two volumes examines the relationships between the concepts of authority and displacement in the English speaking world without restricting the analysis to a particular area or to the field of literature Some essays do indeed deal with literature from different spatial areas and temporal eras while others look into these concepts from a more cultural or aesthetic point of view Volume Two Exploring American Shores includes essays on the place of famous fugitives in American culture notably through the story of Bonnie and Clyde as well as on the links between displacement authority and sculpture on the one hand Placing and Replacing the Capitol Sculptures and on the links between displacement and photography on the other through a study of Joel Sternfeld s Walking the High Line In addition to investigations of Louise Erdrich s novel Books and Islands in Ojibwe Country Canadian landscapes in transit will be studied to highlight the displacement of the Western landscape tradition in English Canada The volume concludes with a study of some literary works by several writers of Guyanese origin first with an essay comparing Martin Carter s and L on Gontran Damas s literary productions and then with an essay devoted to Fred D Aguiar s novel The Longest Memory 1994 Fifty Hollywood

Directors Suzanne Leonard,Yvonne Tasker,2014-11-20 Fifty Hollywood Directors introduces the most important iconic and influential filmmakers who worked in Hollywood between the end of the silent period and the birth of the blockbuster By exploring the historical cultural and technological contexts in which each director was working this book traces the formative period in commercial cinema when directors went from pioneers to industry heavyweights Each entry discusses a director s practices and body of work and features a brief biography and suggestions for further reading Entries include Frank Capra Cecil B DeMille John Ford Alfred Hitchcock Fritz Lang Orson Welles DW Griffith King Vidor This is an indispensable guide for anyone interested in film history Hollywood and the development of the role of the director The Gangster Film Ron
