## **The Netherlands The European Union Political Social And Economic Cooperation:**

**Socialist Parties and the Question of Europe in the 1950's** Richard T. Griffiths, 2023-08-21 During the 1950s the West European Socialist parties found themselves divided on the question of European integration. This cleavage not only separated different national parties from each other but caused deep and painful rifts within national parties themselves. The related controversies form the core of this volume consisting of a synthetic analysis, thirteen national case studies and testimonies of three eyewitnesses: Marinus van der Goes van Naters, Christian Pineau, Mario Zagari, closely involved with the events described. The collection deals with an important aspect of the pre-history of the European Economic Community and provides a useful tool for its comparative study.

**European Union Politics** John McCormick, 2020-05-10 Cutting through the jargon of EU politics, the third edition of this engaging and informative textbook examines the history, institutions, processes and politics of the European Union with unprecedented clarity. The EU is a fascinating political experiment in regional integration and it has changed our understanding of Europe, how Europeans relate to one another, the role Europe plays in global politics and has even shifted our understanding of politics itself. Helping to make sense of it all in the author's accessible style, this book is underpinned by theory and the latest research throughout. Organised in three main parts, the text covers everything from the history of the EU and its treaties to the institutions that make up the EU and its policies in areas such as the economy, the environment and the Area of Freedom, Security and Justice. This is the go-to text for all students taking courses or modules on the EU as well as functioning as an accessible introduction for anyone who wants to find out more about how the EU works and what difference it makes. New to this Edition: Fully updated to take account of the latest developments including the ongoing Brexit negotiations, the 2019 European Parliament elections and more on the fallout from the euro zone and migration crises. Two new separate chapters to cover the European Council and the Council of Ministers respectively. More emphasis on comparative politics throughout to compare institutions and policies. Expanded debates on key issues of contention in the European project. Expanded coverage of the most recent research into public opinion in the EU. New Snapshot features in each chapter focusing on a particular EU country. **European Integration and Consensus Politics in the Low Countries** Hans Vollaard, Jan Beyers, Patrick Dumont, 2014-08-13 The Netherlands, Belgium and Luxembourg are well-known cases of consensus politics. Decision making in the Low Countries has been characterized by broad involvement, power sharing and making compromises. These countries were also founding member states of the European Union (EU) and its predecessors. However, the relationship between European integration and the tradition of domestic consensus politics remains unclear. In order to explore this relationship, this book offers in-depth studies of a wide variety of political actors such as governments, parliaments, political parties, courts, ministries and interest

groups as well as key policy issues such as the ratification of EU treaties and migration policy The authors focus not only on Europeanization but also analyse whether European integration may gradually undermine the fundamental characteristics of consensus politics in the Low Countries Drawing on consociationalism and Europeanization research this volume provides a comprehensive overview of Europeanization in these three EU member states as well as a better understanding of the varieties of consensus politics across and within these countries This book will be of interest to students and scholars of European studies European integration European law political science European political economy and comparative politics
