Special Libraries James M. Matarazzo Ph.D., Toby Pearlstein, 2013-04-23 Learn why special or corporate libraries must align with their parent organizations in order to survive in these difficult economic times and how to foster and demonstrate this critical relationship *Special Libraries A Survival Guide* analyzes what has happened and is still continuing to happen to corporate libraries in order to identify the strategies that must be taken to protect their staff's survival Through a careful examination of a series of case studies of corporate library reductions and closures authors James M Matarazzo and Toby Pearlstein suggest key strategies tactics and survival tools that all types of special library managers can use to minimize their chances of becoming a victim The book underscores the importance of collecting data as a survival tool Additionally it identifies what needs to be taught to students currently enrolled in library and information science LIS programs to give them a leg up in careers This advocacy book is essential reading for staff at special corporate libraries in the English speaking world who wish to retain their positions but it also contains information applicable to today's academic public and even school libraries It is appropriate for students in the field of library and information science LIS faculty and corporate executives responsible for the management of the information function **Special Libraries, Problems and Cooperative Potentials** Robert J.
