Multispecies Discourse Analysis Gavin Lamb, 2024-04-04 Draws on a sociolinguistic study of sea turtle tourism and conservation in Hawai i to chart an innovative approach to the role of discourse and communication in mediating human wildlife relations

Zooland Irus Braverman, 2012-11-28 This book takes a unique stance on a controversial topic zoos Zoos have their ardent supporters and their vocal detractors And while we all have opinions on what zoos do few people consider how they do it Irus Braverman draws on more than seventy interviews conducted with zoo managers and administrators as well as animal activists to offer a glimpse into the otherwise unknown complexities of zooland Zooland begins and ends with the story of Timmy the oldest male gorilla in North America to illustrate the dramatic transformations of zoos since the 1970s Over these decades modern zoos have transformed themselves from places created largely for entertainment to globally connected institutions that emphasize care through conservation and education Zoos naturalize their spaces classify their animals and produce spectacular experiences for their human visitors Zoos name register track and allocate their animals in global databases Zoos both abide by and create laws and industry standards that govern their captive animals Finally zoos intensely govern the reproduction of captive animals carefully calculating the life and death of these animals deciding which of them will be sustained and which will expire Zooland takes readers behind the exhibits into the world of zoo animals and their caretakers And in so doing it turns its gaze back on us to make surprising interconnections between our understandings of the human and the nonhuman

Ultimate Fighting and Embodiment Dale C. Spencer, 2013-06-19 Mixed martial arts MMA is an emergent sport where competitors in a ring or cage utilize strikes punches kicks elbows and knees as well as submission techniques to defeat opponents This book explores the carnal experience of fighting through a sensory ethnography of MMA and how it transgresses the cultural scripts of masculinity in popular culture Based on four years of participant observation in a local MMA club and in depth interviews with amateur and professional MMA fighters Spencer documents fighters training regimes and the meanings they attach to participation in the sport Drawing from the philosophical phenomenology of Martin Heidegger Maurice Merleau Ponty and Jean Luc Nancy this book develops bodies centered ontological and epistemological grounding for this study Guided by such a position it places bodies at the center of analysis of MMA and elucidates the embodied experience of pain and injury and the sense and rhythms of fighting

Parading Respectability Sylvia Bruinders, 2017-09-01 Parading respectability The cultural and moral aesthetics of the Christmas Bands Movement in the Western Cape South Africa is an intimate and incisive portrait of the Christmas Bands Movement in the Western Cape of South Africa Drawing on her own on background as well as her extended research study period during which she became a band member and was closely involved in its day to day affairs the author Dr Sylvia Bruinders documents this centuries old expressive practice of ushering in the joy of Christmas through music by way of a social history of the coloured communities In doing so she traces the slave origins of the Christmas Bands Movement as well

as how the oppressive and segregationist injustices of both colonialism and apartheid together with the civil liberties afforded in the South African Constitution 1996 after the country became a democracy in 1994 have shaped the movement

The Concept of the Beautiful Agnes Heller, 2012-02-01 The main purpose of this book is to explicate the problematic relationship between the heterogeneity of what is experienced as beautiful and the homogeneity of the conceptualization of that experience or attempt at such a conceptualization in the era of modern philosophy While the heterogeneity of what is experienced as beautiful was permitted and indeed celebrated in the dominant ancient conception for example in the Symposium and Phaedrus of Plato the need for homogenization in the later appropriation of Plato and in the Enlightenment period relegated the beautiful to the privileged domain of artworks In her analysis Agnes Heller provides a unique and significant emphasis on the original life content of the experience of the beautiful which becomes lost in the modern system of the arts This book details the history of the concept of the beautiful starting with what Agnes Heller distinguishes between the warm metaphysics of beauty and the cold one inspired by Plato's Janus faced relationship to beauty and ending with a fragmented yet hopeful vision propagated by Friedrich Nietzsche Walter Benjamin and Theodor W Adorno among others In between these two historical parentheses the metaphysical Plato on one hand and the post metaphysical Nietzsche Benjamin and Adorno on the other hand lay a plenitude of figures and intellectual developments all of which contributed to the demise of the concept of the beautiful in the Western metaphysical tradition The most important of these figures and developments are examined in this book

The New Urban Park Hal Rothman, 2004 From Yellowstone to the Great Smoky Mountains America's national parks are sprawling tracts of serenity most of them carved out of public land for recreation and preservation around the turn of the last century America has changed dramatically since then and so has its conceptions of what parkland ought to be In this book one of our premier environmental historians looks at the new phenomenon of urban parks focusing on San Francisco's Golden Gate National Recreation Area as a prototype for the twenty first century Cobbled together from public and private lands in a politically charged arena the GGNRA represents a new direction for parks as it highlights the long standing tension within the National Park Service between preservation and recreation Long a center of conservation the Bay Area was well positioned for such an innovative concept Writing with insight and wit Rothman reveals the many complex challenges that local leaders politicians and the NPS faced as they attempted to administer sites in this area He tells how Representative Phillip Burton guided a comprehensive bill through Congress to establish the park and how he and others expanded the acreage of the GGNRA redefined its mission to the public forged an identity for interconnected parks and struggled against formidable odds to obtain the San Francisco Presidio and convert it into a national park Engagingly written *The New Urban Park* offers a balanced examination of grassroots politics and its effect on municipal state and federal policy While most national parks dominate the economies of their regions GGNRA was from the start tied to the multifaceted needs of its public and political constituents including neighborhood ethnic and labor interests as well as the

usual supporters from the conservation movement As a national recreation area GGNRA helped redefine that category in the public mind By the dawn of the new century it had already become one of the premier national park areas in terms of visitation Now as public lands become increasingly scarce GGNRA may well represent the future of national parks in America Rothman shows that this model works and his book will be an invaluable resource for planning tomorrow s parks The Philosophy of the Beautiful William Angus Knight,1893 *The Works of Thomas Carlyle in Thirty Volumes: History of Friedrich II of Prussia, called Frederick the Great* Thomas Carlyle,1898 Everybody's Guide to Music Josiah Booth,1893
