Speedboat Racing:

Powerboat Racing on the Chesapeake William W. Mowbray, 1995 This is the first book that documents the development and history of racing activity on the bay. It focuses on the limited inboard racing classes of the American Power Boat Association APBA because those craft have been the racing segment most avidly followed in the region. The drama of racing and the personalities of those involved are conveyed through the author's first hand experiences gathered during close to thirty years of following Chesapeake Bay regattas. Particular tribute is paid to the owners drivers and mechanics who have risked their money and sometimes their lives to undertake the exciting and dangerous sport of powerboat racing and in so doing to entertain the enthusiasts who follow their activities. An appendix listing of boat names owners and classes will surely be of interest to any racing fan.

Classic Speedboats, 1916-1939 Gérard Guétat, 1997 Readers can relive the true golden age of high performance classic speedboats in this book that covers these mighty wooden hulled craft from around World War I until just before the second World War. This was an era when speed was still a new plaything and speedboats and aircraft were raced as passionately as were automobiles when massive mahogany speedboats powered by engines from suppliers such as Rolls Royce competed fiercely against rivals from around the world. Classic speedboat enthusiasts will relish the cutaway drawings of these craft as well as the choice archival photography and the modern color photography of these now impeccably restored beauties.
