Spectacle Of The Body:

The Spectacle of the Body Noy Holland, 1995-11-01 **Development of the Global Film Industry** Qiao Li, Yanqiu Guan, Hong Lu, 2020-09-01 The global film industry has witnessed significant transformations in the past few years. Regions outside the USA have begun to prosper while non-traditional production companies such as Netflix have assumed a larger market share and online movies adapted from literature have continued to gain in popularity. How have these trends shaped the global film industry? This book answers this question by analyzing an increasingly globalized business through a global lens. *Development of the Global Film Industry* examines the recent history and current state of the business in all parts of the world. While many existing studies focus on the internal workings of the industry such as production, distribution and screening, this study takes a big picture view encompassing the transnational integration of the cultural and entertainment industry as a whole and pays more attention to the coordinated development of the film industry in the light of influence from literature, television, animation, games and other sectors. This volume is a critical reference for students, scholars and the public to help them understand the major trends facing the global film industry in today's world. **Brilliant Bodies**

Timothy McCall, 2022-02-21 Italian court culture of the fifteenth century was a golden age gleaming with dazzling princes, splendid surfaces and luminous images that separated the lords from the literally lackluster masses. In *Brilliant Bodies*, Timothy McCall describes and interprets the Renaissance glitterati gorgeously dressed and adorned men to reveal how charismatic bodies in the palazzo and the piazza seduced audiences and materialized power. Fifteenth-century Italian courts put men on display. Here men were peacocks attracting attention with scintillating brocades, shining armor, sparkling jewels and glistening swords, spurs and sequins. McCall's investigation of these spectacular masculinities challenges widely held assumptions about appropriate male display and adornment. Interpreting surviving objects, visual representations in a wide range of media and a diverse array of primary textual sources, McCall argues that Renaissance masculine dress was a political phenomenon that fashioned power and patriarchal authority. *Brilliant Bodies* describes and recontextualizes the technical construction and cultural meanings of attire, casts a critical eye toward the complex and entangled relations between bodies and clothing and explores the negotiations among makers, wearers and materials. This groundbreaking study of masculinity makes an important intervention in the history of male ornamentation and fashion by examining a period when the public display of splendid men not only supported but also constituted authority. It will appeal to specialists in art history and fashion history as well as scholars working at the intersections of gender and politics in quattrocento Italy.

Intermittences Ana Forcinito, 2019-01-09 The construction of memory entails a battle not only between memory and forgetting but also between different memories. There are multiple constructions of memory and in the dispute between them some become hegemonic while others remain in the margins. Ana Forcinito explores the intermittences of transitional justice and memory in post-dictatorship Uruguay. The processes of building memory and transitional justice are repetitive but

inconstant They are contested by both internal and external forces and shaped by tensions between oblivion and silence Forcinito explores models of reconciliation to present an alternative narrative of the past and to expose the blind spots of memory

The Problem Body Sally Chivers, Nicole Markotić, 2010 In *The Problem Body* editors Sally Chivers and Nicole Markotić bring together the work of eleven of the best disability scholars from the U S the U K Canada and South Korea to explore a new approach to the study of film by concentrating on cinematic representations of what they term the problem body The book is a much needed exploration of the projection of disability on film combined with a much needed rethinking of hierarchies of difference The editors turned to the existing corpus of disability theory with its impressive insights about the social and cultural mediation of disabled bodies They then sought from scholars at every stage of their careers new ideas about how disabled bodies coexist with a range of other bodies gendered queered racialized classed etc To call into question why certain bodies invite the label problem more frequently than other bodies the contributors draw on scholarship from feminist race queer cultural studies disability and film studies arenas In Chivers and Markotić's introduction they draw on disability theory and a range of cinematic examples to explain the term problem body in relation to its projection In explorations of film noir illness narratives classical Hollywood film and French film the essays reveal the problem body as a multiplication of lived circumstances constructed both physically and socially
