This intention reflects the technical developments in the last three decades which have brought the capacity of HSI to provide spectrally, spatially and temporally detailed data favoured by e.g. hyperspectral snapshot technologies, miniaturized hyperspectral sensors and hyperspectral microscopy imaging. The present book comprises a suite of papers in various fields of environmental sciences: geology, mineral exploration, digital soil mapping, mapping and characterization of vegetation and sensing of water bodies, including under ice and underwater applications. In addition, there are two rather methodically, technically oriented contributions dealing with the optimized processing of UAV data and on the design and test of a multi-channel optical receiver for ground-based applications. All in all, this compilation documents that HSI is a multi-faceted research topic and will remain so in the future.      *Holt Science and Technology* 2002 Holt Rinehart & Winston, Holt, Rinehart and Winston Staff, 2002      **El-Hi Textbooks & Serials in Print, 2005**, 2005      **Te HS&T J** Holt Rinehart & Winston, Holt, Rinehart and Winston Staff, 2004-02      *Curriculum Review*, 1985      *Science Spectrum* Holt Rinehart & Winston, Holt, Rinehart and Winston Staff, 2003-03      **Test Gen Item List Sci Spectrum 2001 Bal** Holt Rinehart & Winston, 2000-07-07      **Holt Earth**

Gallant, 2014-09-24 Hope and Fear in Margaret Chase Smith's America. A Continuous Tangle provides a fresh interpretation of the life, career and legacy of former United States Senator Margaret Chase Smith, the first woman elected to both houses of the U.S. Congress. The book examines the critical connections made by Smith to key policymakers, links that allowed her to overcome opposition and prejudice to gain access, influence and power in Washington D.C. Highlighting the tangle of personalities and events in America from 1940 to 1972, the book focuses on Smith's courageous and often solitary efforts on behalf of women during the 1940s and her stand during the McCarthy era which earned her a national reputation for civility in public discourse. It also examines her key interactions with the group of U.S. Senators who were elected with her in 1948 and their work to forge

public policy in the aftermath of McCarthyism including domestic and international policy following Sputnik the creation of the Space Program civil rights Vietnam and Medicare Against these events and activities the book demonstrates the impact of the nation's commitment to anticommunism and nuclear weapons which allowed politicians like Margaret Chase Smith to embrace contradictory stances on political dissent military policy and the role of government in American society
