Talking Poetics from Naropa Institute Anne Walman, Marilyn Webb, 1978 **Talking Poetics from Naropa Institute** Anne Waldman, 1979 Talking Poetics from Naropa Institute Anne Waldman, Marilyn Webb, 1979-04 Talking Poetics from Naropa Institute; Ed. by Anne Waldman and Marilyn Webb; Introduction by Allen Ginsberg, 1978 Talking Poetics from Naropa Institute David Bromige, 1981 *The Beats, Black Mountain, and New Modes in American Poetry* Matt Theado, 2021-09-15 The Beats Black Mountain and New Modes of American Poetry explores correspondences amongst the Black Mountain and Beat Generation writers two of most well known and influential groups of poets in the 1950s The division of writers as Beat or Black Mountain has hindered our understanding of the ways that these poets developed from mutual influences benefitted from direct relations and overlapped their boundaries This collection of academic essays refines and adds context to Beat Studies and Black Mountain Studies by investigating the groups intersections and undercurrents One goal of the book is to deconstruct the Beat and Black Mountain labels in order to reveal the shifting and fluid relationships among the individual poets who developed a revolutionary poetics in the 1950s and beyond Taken together these essays clarify the radical experimentation with poetics undertaken by these poets **Recalling Chogyam Trungpa** Fabrice Midal, 2005-12-13 In wide ranging essays and interviews contributors from the fields of Buddhist practice and scholarship philosophy the arts and literature examine the work of a modern genius the Tibetan Buddhist meditation master Ch gyam Trungpa Rinpoche 1939 1987 A pioneer in introducing Buddhism to the West Trungpa Rinpoche had a distinct knack for breaking down the cultural historical and ideological barriers that make any such transmission so difficult today His skill at communicating in a living language to Western students while remaining faithful to the traditional origins of Buddhism was paired with an understanding of the modern world of unusual relevance As a result his activities in a wide range of areas including psychology education theater poetry visual arts translation publishing interreligious dialogue the creation of a path of spiritual warriorship and the founding of the first Buddhist university in North America offer penetrating insights into the meaning of Buddhism for our world and our culture This anthology is a testimony to the continuing influence of his unique qualities and work as a revitalizing force in spheres both spiritual and secular **Encyclopedia of the New York School Poets** Terence Diggory, 2009 An A to Z reference to writers of the New York School including John Ashbery who is often considered America s greatest living poet Examines significant movements in literary history and its development through the years **The Material of Poetry** Gerald L. Bruns, 2005 Poetry is philosophically interesting writes Gerald L Bruns when it is innovative not just in its practices but before everything else in its poetics that is in its concepts or theories of itself In *The Material of Poetry* Bruns considers the possibility that anything under certain conditions may be made to count as a poem By spelling out such enabling conditions he gives us an engaging overview of some of the kinds of contemporary poetry that challenge our notions of what language is sound poetry visual or concrete poetry and found poetry Poetry s sense and

meaning can hide in the spaces in which it is written and read says Bruns and so he urges us to become anthropologists to go afield in poetry's social historical and cultural settings From that perspective Bruns draws on works by such varied poets as Gertrude Stein Ezra Pound Steve McCaffery and Francis Ponge to argue for three seemingly competing points First poetry is made of language but is not a use of it That is poetry is made of words but not of what we use words to produce concepts narratives expressions of feeling and so on Second as the nine sound poems on the CD included with the book demonstrate poetry is not necessarily made of words but is rooted in and in fact already fully formed by sounds the human body can produce Finally poetry belongs to the world alongside ordinary things it cannot be confined to some aesthetic neutral or disengaged dimension of human culture Poetry without frontiers unmoored from expectations and sometimes even written in imaginary languages Bruns shows us why for the sake of all poetry we should embrace its anarchic vitalizing ways

The Beats and the Academy Erik Mortenson, Tony Trigilio, 2023-04-01 *The Beats and the Academy* marks the first sustained effort to train a scholarly eye on the dynamics of the relationship between Beat writers and the academic institutions in which they taught Rather than assuming the relationship between Beat writers and institutions of higher education was only a hostile one *The Beats and the Academy* begins with the premise that influence between the two flows in both directions Beat writers' suspicion of established institutions was a significant aspect of their postwar countercultural allure Their anti-establishment aesthetic and countercultural stance led Beat writers to be critical of postwar academic institutions that tended to dismiss them as a passing social phenomenon Even today Beat writing still meets resistance in an academy that questions the relevance of their

writing and ideas But this picture like any generalization is far too easy The Beat relationship to the academy is one of negotiation rather than negation Many Beats strove for academic recognition and quite a few received it And despite hostility to their work both in the postwar era and today Beat works have made it into syllabi conference presentations journal articles and monographs The Beats and the Academy deepens our understanding of this relationship by emphasizing how institutional friction between the Beats and institutions of higher education has shaped our understanding of Beat Generation literature and culture and what this relationship between Beat writers and the academy might suggest about their legacy for future scholars The Poetics of Marginality Maria Damon,1988 **Conversations with New York School Poets** Rona
