Talking Together Student:

Talking Together about an Autism Diagnosis Rachel Pike, 2008 At The National Autistic Society we are often asked about how best to talk to someone about their autism diagnosis We feel that a person with autism has the right to know their diagnosis Wanting to protect someone from their diagnosis can feel like the kindest thing to do but in reality it often gets harder the longer it is delayed There are definite advantages to talking about the diagnosis but these vary between individuals Many people have commented that they would like to have known earlier because knowing their diagnosis came as a relief and a source of comfort This book offers a wealth of advice and guidance Aimed primarily at parents and carers of younger children it includes helpful information also for schools and for people working with adults with autism Radical Collegiality through Student Voice Roseanna Bourke, Judith Loveridge, 2018-08-17 This book celebrates the rights of the child through including student voice in educational matters that affect them directly It focuses on the experiences of children and young people and explores how our educational policies practices and research endeavours enable educators to help young people tell their own stories The respective chapters illustrate how listening to young people can help them attain new positions of power even though doing so often creates discomfort and requires a radical change on the part of the adult establishment Further the book challenges researchers teachers and practitioners to reconsider how students are involved in research and policy agendas and to what extent radical collegiality can create fundamental and positive changes in the lives of these learners In recent decades greater attention has been paid across policy practice and research discourses to involving children more meaningfully and actively in decisions about their participation in both formal and informal educational settings The book's goal is to illustrate how researchers have systematically involved students in the pursuit of a richer understanding of educational experiences policy and practice through the eyes and ears of young people and through their own cultural lens *Read, Talk, Write* Laura Robb, 2016-09-16 Yes we can have our cake and eat it too We can improve students reading and writing performance without sacrificing authenticity In *Read Talk Write* Laura Robb shows us how First she makes sure students know the basics of six types of talk Next she shares 35 lessons that support rich conversation Finally she includes new pieces by Seymour Simon Kathleen Krull and others so you have texts to use right away *Read Talk Write* it's a process your students not only can do but one they will love to do **Complete PET Student's Book Pack (Student's Book with Answers with CD-ROM and Audio CDs (2))** Emma Heyderman, Peter May, 2010-02-04 Complete PET combines the very best in contemporary classroom practice with stimulating topics aimed at teenagers and young adults
