## Talks On Chiinese Culture:

*Talks on Chinese Culture* Chabanel Language Institute, Hsinchu, Taiwan, 1966 《中華文化》 Vivian Ling, 1997 Talks on Chinese Culture TOCC is a post basic Chinese language textbook intended for students who possess solid mastery of at least two years of college level Chinese. It is designed to serve as a bridge along the path from basic command to professional level functionality. TOCC takes the view that the student of Chinese needs to be conversant with both forms of the Chinese character: simplified and traditional. Complex text materials are thus presented in both forms and in a manner which challenges the student to master both forms. The various topics presented in TOCC serve as vehicles for the mastery of the kind of basic vocabulary that characterizes the conversations and writings of educated Chinese speakers. TOCC is based on the widely known Yale series of Chinese language texts which even today retains an unsurpassed degree of correlation with currently used vocabulary and sentence patterns. However, students from different curricular backgrounds may also use this text with success. The goal of TOCC is to advance the student's skill levels in listening and speaking as well as reading and writing. 《中華文化》, 1964

**Fifteen Lectures On Traditional Chinese Culture** Peng-cheng Kung, 2022-01-10 This book is edited based on a series of lectures on Chinese cultural history delivered at the Peking University in 2004. It stands out with its distinctive methodology and unique stand and is popular with readers with 17 reprints for the Chinese edition since 2006. Before the 1980s traditional culture was often the target of criticisms and put in a negative light in China. After the 1980s due to the belief that traditional culture can contribute to modernization people decided to take its essence and discard its dregs. As of today most books on this theme have been written in accordance with this principle. However, in this book the author argues that many problems have emerged from the modernization of the Western society and thus the need for reflection and re-examining Traditional Chinese culture is a source for comparison and reflection. As such when we discuss traditional culture nowadays not only should we excavate its long hidden meanings but we should also develop contrastive resources to facilitate our collaborative development in future. The discussions in this book adopt a vertical structure that begins with how Chinese define a human followed by topics on the human body, Qi, food, male and female, home and state, the relationship between heaven and human, beings, ritual systems, historical consciousness, thinking patterns, the art of expressing sentiments, commitments to the politics of virtues and achievements and cultural practices. In every chapter there is also a horizontal method of comparison on Chinese, Western and Indian cultures to foreground the particularities and advantages of the Chinese culture. Apart from elaborating on the major characteristics of traditional Chinese culture there is also a discussion on how the modern disdain for and misunderstandings of the traditional culture originated from the West. The author also elaborates on Montesquieu's views of China and the various misconceptions and misunderstandings of the traditional Chinese legal systems. Finally it ends with the author's thoughts on the revitalization of the Chinese civilization.
