Andrew Fenton Cooper

Taming The Sovereigns Institutional Change In International Politics:

Taming the Sovereigns Kalevi Jaakko Holsti, 2004-01-22 Many analysts claim that international politics has recently entered a new era following the end of the Cold War and then the events of September 11th In this book Kalevi Holsti asks what we mean by change in international politics How do we identify it How do we distinguish between significant and unimportant changes Do we really live in a new era or do we see more continuity than transformation in the texture of international politics Combining theoretical and empirical argument Holsti investigates eight major international institutions including the state sovereignty territoriality international law diplomacy trade and war Having identified the types of change these institutions have undergone during the last three centuries Holsti analyses the sources of those changes and speculates on their consequences This is a major book likely to have lasting influence in the study of international politics

Perspectives on World Politics Richard Little, Michael Smith, 2006 This third edition substantially revised and updated takes full account of the literature on the post Cold War period and how theories have been influenced by events in the 1990s

Institutional Change and the International Criminal Court Cenap Çakmak, 2021-09-12 This book explores the dynamics and trajectories of change in international politics through an English School analysis of primary institutions including international law sovereignty and diplomacy with particular reference to the creation of the International Criminal Court ICC The study argues that it serves as an important indicator and model for redefining international politics particularly through its impact upon three major institutions as prescribed by the English School international law sovereignty and diplomacy The author explores three major areas the ICC s contribution to the consolidation of the individual as a subject of the international law the significance of the Court and its jurisdiction in terms of the state sovereignty and the strong and determinative role of non state actors active on global level during the diplomatic process upheld for the making of the norms and rules during the creation of the ICC These three fields of change point out to the redefinition and reconstruction of international politics heralding a solidarist vision of international society The book will be of particular interest to researchers in the field of the IR as well as graduate students interested in IR theory international law and international organizations

The Concertation Impulse in World Politics Andrew Fenton Cooper, 2023-12-21 This book unravels the centrality of contestation over international institutions under the shadow of crisis Andrew Cooper makes a compelling case that concertation represents a fundamental institution as a peer competitor to multilateralism

Toward a Paradigm Shift in International Relations Studies Navid Pourmokhtari, 2025-01-07 This book argues that not only has the present international relations IR paradigm failed to preserve global peace in our time it has also proved to be an obstacle in this regard and for this reason a paradigm shift is urgently required With a view to demonstrating the IR paradigm s failure to secure global peace moreover a Foucauldian inspired discourse analysis is used here to flesh out an archaeology of what I call knowledge relations within IR studies This analysis reveals that within IR s paradigmatic corridors

of knowledge the theoretical analytical category of war has been privileged i.e. elevated to the level of chief subject and object of analysis vis vis peace In order to show how this is the case moreover this book examines the paradigm's mainstream debates e.g. those on human nature power and the state of nature and by implication state sovereignty and nationalism in addition to its authoritative subfields in particular peace studies international relations theory global governance and security studies Each of these works reproduces indeed glorifies war to the exclusion of a lasting global peace and in large part by promoting certain knowledges that are racial colonial gendered and consequently bellicose All this connotes that the IR paradigm is grounded in a regime of knowledge that tells us everything about the dynamics of war and nothing substantive about realizing peace hence the pressing need for a paradigm shift Put differently under the auspices of IR studies contemplating peace is fruitless a mere scholarly mirage and precisely because achieving it under this paradigmatic status quo is not and will never be a condition of possibility If anything this book demonstrates that we have not even begun to speak truth to knowledge in the cause of global peace

The Oxford Handbook on the United Nations Thomas George Weiss, Sam Daws, 2008-11-13 This major new handbook provides the definitive and comprehensive analysis of the UN and will be an essential point of reference for all those working on or in the organization

Rising Powers, Global Governance and Global Ethics Jamie Gaskarth, 2015-02-11 Two of the dominant themes of discussion in international relations scholarship over the last decade have been global governance and rising powers Underlying both discussions are profound ethical questions about how the world should be ordered who is responsible for addressing global problems how change can be managed and how global governance can be made to work for peoples in developing as well as developed states Yet these are often not addressed or only briefly mentioned as ethical dilemmas by commentators This book seeks to ask critical and profound questions about what relative shifts in power among states might mean for the ethics and practice of global governance Three key questions are addressed throughout the volume Who is rising and how How does this impact on global governance What are the implications of these developments for global ethics Through these questions some of the key academics in the field explore how far debates over global ethics are really between competing visions of how international society should be governed as opposed to tensions within the same broad paradigm By examining how governance works in practice across the Middle East Africa and Asia the contributors to this volume seek to critique the way global governance discourse masks the exercise of power by elites and states both developed and rising This work will be essential reading for all those with an interest in the future of international relations and global governance

The Global Community Yearbook of International Law and Jurisprudence 2018 Giuliana Ziccardi Capaldo, 2019-08-16 The Global Community Yearbook is a one stop resource for all researchers studying international law generally or international tribunals specifically The Yearbook has established itself as an authoritative source of reference on global legal issues and international jurisprudence It includes analysis of the most significant global trends in a way that allows readers to monitor the development of the global legal

order from several perspectives The Global Community Yearbook publishes annually in a volume of carefully chosen primary source material and corresponding expert commentary The general editor Professor Giuliana Ziccardi Capaldo employs her vast expertise in international law to select excerpts from important court opinions and to choose experts from around the world to contribute essay guides which illuminate those cases Although the main focus is recent case law from the major international tribunals and regional courts the first four parts of each year's edition features expert articles by renowned scholars who address broader themes in current and future developments in international law and global policy themes that appear throughout the case law of the many courts covered by the series as a whole The Global Community Yearbook has thus become not just an indispensable window to recent jurisprudence the series now also serves to prepare researchers for the issues facing emerging global law The 2018 edition both updates readers on the important work of long standing international tribunals and introduces readers to more novel topics in international law The Yearbook continues to provide expert coverage of the Court of Justice of the European Union and diverse tribunals from the International Court of Justice ICJ to criminal tribunals such as the International Criminal Court ICC and the Tribunals for the Former Yugoslavia and Rwanda to economically based tribunals such as ICSID and the WTO Dispute Resolution panel This edition contains original research articles on the development and analysis of the concept of global law and the views of the global law theorists such as whether the Paris Declaration of 2017 and the Oslo Recommendation of 2018 deals with enhancing their institutions legitimacy how to reconcile human rights trade law intellectual property investment and health law with the WTO dispute settlement panel upholding Australia's tobacco plain packaging measure Israel's acceptance of Palestinian statehood contingent upon prior Palestinian demilitarization is potentially contrary to pertinent international law and a proposal to strengthen cooperation between the ECJ and National Courts in light of the failure of the dialogue between the ECJ and the Italian Constitutional Court on the interpretation of Article 325 of the Treaty on the Functioning of the European Union The Yearbook provides students scholars and practitioners alike a valuable combination of expert discussion and direct quotes from the court opinions to which that discussion relates as well as an annual overview of the process of cross fertilization between international courts and tribunals The Yearbook provides students scholars and practitioners alike a valuable combination of expert discussion and direct quotes from the court opinions to which that discussion relates as well as an annual overview of the process of cross fertilization between international courts and tribunals and a section focusing on the thought of leading international law scholars on the subject of the globalization This publication can also be purchased on a standing order basis

Europe's World Knud Erik Jørgensen, Tonny Brems Knudsen, Laura Landorff, 2025-05-27 The EU's international environment is increasingly characterized by power politics great power rivalry ideological contestation and war This has challenged the liberal internationalist identity that has been at the heart of the EU since its birth This book examines how the EU has responded to these new realities It analyses the introduction of a flurry of concepts including

European sovereignty strategic autonomy civilization responsibility and strategic compass and asks whether these signal a reconsideration of foreign policy objectives a new strategic orientation or possibly a paradigm shift The book develops a theoretical framework on policy paradigms worldviews grand strategy strategic narratives and the drivers of institutional change followed by chapters on the anti liberal challenge the evolution of the EU framework of ideas the search for grand strategy and strategic autonomy the response to Russian aggression and imperial thinking and continuity and change in EU unity working groups green leadership and strategic communication

Debating Institutionalism Jon Pierre, Guy Peters, Gerry Stoker, 2008-12-15 Institutionalism has become one of the dominant strands of theory within contemporary political science This book addresses the fundamental question whether institutionalism is useful for the various sub disciplines within political science to which it has been applied

The Sovereign State and Its Conformists Tomoko T. Okagaki, 2005

Constructing International Relations in the Arab World Fred Haley Lawson, 2006 This study shows how mutually antagonistic states took shape in the Arab world during the first half of the 20th century and argues that process was driven by domestic political conflicts

The Journal of International Communication, 2006 □□□□□□, 2005

World Trade Report 2007 World Trade Organization, 2007

Politeia, 2009 English and Afrikaans with abstracts in English

Governance and Institutional Re-engineering Ann Marie Bissessar, 2008 Comprises a series of articles on governance and the institutions of governance This book presents a discussion of contemporary challenges and discussions in the field of government and public administration

The Iraq Crisis and World Order Ramesh Chandra Thakur, Ramesh Thakur, Waheguru Pal Singh Sidhu, 2006 The Iraq war was a multiple assault on the foundations and rules of the existing UN centred world order It called into question the adequacy of the existing institutions for articulating global norms and enforcing compliance with the demands of the international community It highlighted also the unwillingness of some key countries to wait until definitive proof before acting to meet the danger of the world s most destructive weapons falling into the hands of the world s most dangerous regimes It was simultaneously a test of the UN s willingness and ability to deal with brutal dictatorships and a searching scrutiny of the nature and exercise of American power The United States is the world s indispensable power but the United Nations is the world s indispensable institution The UN Security Council is the core of the international law enforcement system and the chief body for building consolidating and using the authority of the international community The United Nations has the primary responsibility to maintain international peace and security and is structured to discharge this responsibility in a multipolar world where the major powers have permanent membership of the key collective security decision making body namely the UN Security Council The emergence of the United States as the sole superpower after the end of the Cold War distorted the structural balance in the UN schema The United Nations is the main embodiment of the principle of multilateralism and the principal vehicle for the pursuit of multilateral goals The United States has global power soft as well as hard the United Nations is the fount of international authority Progress towards a

world of a rules based civilized international order requires that US force be put to the service of lawful international authority This book examines these major normative and structural challenges from a number of different perspectives

International Society and the Middle East Barry Buzan,Ana Gonzalez-Pelaez,2009-03-12 Offers an overview of Middle Eastern history and how its own traditions have mixed often uncomfortably with the political structures imposed by the expansion of Western international society This book also features an application of the English school s central ideas at the regional level *The European Union in Global Forest Governance* Minna Jokela,2006
