Target Hiroshima:

Target Hiroshima Al,2014-02-15 For better or worse Navy captain William S Deak Parsons made the atomic bomb happen As ordnance chief and associate director at Los Alamos Parsons turned the scientists nuclear creation into a practical weapon As weaponeer he completed the assembly of Little Boy during the flight to Hiroshima As bomb commander he approved the release of the bomb that forever changed the world Yet over the past fifty years only fragments of his story have appeared in part because of his own self effacement and the nation s demand for secrecy Based on recently declassified Manhattan Project documents including Parsons logs and other untapped sources the book offers an unvarnished account of this unsung hero and his involvement in some of the greatest scientific advances of the twentieth century **No Strategic Targets Left** F. J. Bradley,1999 Atomic Bomb Island Don A. Farrell,2021-01-15 Atomic Bomb Island tells the story of an elite top secret team of sailors airmen scientists technicians and engineers who came to Tinian in the Marianas in the middle of 1945 to prepare the island for delivery of the atomic bombs then being developed in New Mexico to finalize the designs of the bombs themselves and to launch the missions that would unleash hell on Japan Almost exactly a year before the atomic bombs were dropped strategically important Tinian was captured by Marines because it was only 1 500 miles from Japan and its terrain afforded ideal runways from which the new B 29 bombers could pound Japan In the months that followed the U S turned virtually all of Tinian into a giant airbase with streets named after those of Manhattan Island a Marianas city where the bombs could be assembled the heavily laden B 29s could be launched and the Manhattan Project scientists could do their last work Don Farrell has done this story incredible justice for the 75th anniversary The book is a thoroughly researched beautifully illustrated mosaic of the final phase of the Manhattan Project from the Battle of Tinian and the USS Indianapolis to Hiroshima and Nagasaki **The B-29 Superfortress Chronology, 1934-1960** Robert A. Mann,2009-09-12 The Boeing B 29 Superfortress lived an operational life of only 26 years but what a life it was The introduction to this book provides basic information on the physical plane dimensions specs leading particulars and operational usages Then an exhaustive day by day chronology of the B 29 is presented from the earliest designs in 1934 through thousands of missions and aircraft events in World War II and Korea to the 1960 retirement of the last operational B 29 The book also includes an extensive glossary and three appendices which provide a discussion of the general anatomy of a mission a sample of operational voice or radio codes used in 1945 and a guide to very unofficial aircraft names **Military Review** ,2000 Target Hiroshima Al Christman,1998-03-01 Navy Captain Parsons made the atomic bomb happen As associate director at Los Alamos Parsons turned the scientists nuclear creation into a practical weapon He approved the release of the bomb that forever changed the world This book based on declassified Manhattan Project documents including Parsons logs and other untapped sources offers an unvarnished account of this unsung hero and his involvement in some of the greatest scientific advances of the 20th century such as radar and the proximity fuse as well as the atomic bomb His influence continued after WW2 when he helped
