The Myth Of France:

The Myth of France Raymond Rudorff, 1970 **Rewriting History and the Myth of the French Nation** Anna Katharina Rudolph, 2025-11-18 This multidisciplinary analysis of the cult of Radegund of Poitiers from the sixth century to the twenty first illuminates the roles saints play at the intersection of gender and politics No other medieval saint was so politically charged or had such an astonishing range of constructed personae The many Radegunds encountered in this study virgin wife mother royalist republican colonizer can all be interpreted as responses to contemporary political events shifting spiritual trends and changing attitudes towards women s role in society or the Church The long trajectory of Radegund s meanings and functions over the centuries suggests that saints have played a more significant ideological role in state formation nationalism and identity politics than is typically recognized To rewrite Radegund is thus to rewrite the history of the French nation and this ground breaking study shows how powerful medieval hagiography has been and continues to be in the emergence of nationalism and the Myth of the French Nation **The Myth of the French Revolution** Alfred Cobban, 1977

French Presidentialism and the Election of 1995 Lorna Milne, John Gaffney, 2018-12-21 First published in 1997 this volume examines the presidential elections one of the central events of the democratic process in France and arguably the main organising principle of French politics since 1962 provide an opportunity to assess the development of the regime More significantly they allow us to assess modifications to the office of president and to French Presidentialism which are both reflected in an affected by the electoral campaign and the elections themselves This book provides such an assessment with specific reference to the candidates issues and events of the 1995 Presidential elections **Mythology in French Literature** Phillip Crant, 1976 *The Myth of the Savage and the Beginnings of French Colonialism in the Americas* Olive Patricia Dickason, 1997-01-01 A classic study of early contact between European explorers and North American natives When the two cultures met in the fifteenth century it meant great upheavals for the Amerindians but strengthened the Europeans move toward nation states and capitalism *In the Shadow of the General* Sudhir Hazareesingh, 2012-05-04 Charles De Gaulle s leadership of the French while in exile during World War II cemented his place in history In contemporary France he is the stuff of legend consistently acclaimed as the nation s pre eminent historical figure But paradoxes abound For one thing his personal popularity sits oddly with his social origins and professional background Neither the Army nor the Catholic Church is particularly well regarded in France today as they are seen to represent antiquated traditions and values So why then do the French nonetheless identify with celebrate and even revere this austere and devout Catholic who remained closely wedded to military values throughout his life In *The Shadow of the General* resolves this mystery and explains how de Gaulle has come to occupy such a privileged position in the French imagination Sudhir Hazareesingh s story of how an individual life was transformed into national myth also tells a great deal about the French collective self in the twenty first century its fractured memory its aspirations to greatness and its manifold anxieties Indeed alongside the tale of de Gaulle s legacy the

author unfolds a much broader narrative the story of modern France

Judging War Crimes And Torture Yves

Beigbeder,2006 This volume shows that even democratic countries like France but not France alone can commit war crimes crimes against humanity and even be accomplices in genocides However past crimes must be recalled and exposed particularly if they have been hidden covered by amnesties and not judicially punished They must be visible as part of a country s history in order to ensure that they are not repeated

Foreign Policy and Interdependence in Gaullist

France Edward Morse,2015-03-08 French foreign policy in the 1960 s seemed unique because it was dominated by the anachronistic ideals of Charles de Gaulle Edward L Morse argues that in fact the foreign policies of all highly modernized states are so similar that they can be described and explained by a general theory of interdependence He uses France as a case study of his theory and shows that what makes French foreign policy in this period so fascinating is the way in which the behavior of the President brought into sharp focus the problems interdependence poses for nation states The book is divided into two parts The first develops the theory of the conduct of foreign policy in any highly modernized society The second part tests the theory by examining such characteristics of French foreign policy as the erosion of the distinction between foreign and domestic affairs the constraints put on foreign policy by the growth of international economic interdependence which has also affected the autonomy of decision making in a purely national context the increased importance of foreign economic policy the questioning of governmental priorities in foreign affairs and the emergence of crisis management and manipulation as part of the routine procedures of foreign policy operations Edward L Morse s work is valuable both for the theory it offers and because it gives a balanced view of foreign policy in an important period in recent French history Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

French Defence Policy Since the End of the Cold War

Alice Pannier,Olivier Schmitt,2020-12-27 This book describes the evolution of French defence policy since the end of the Cold War For the past thirty years there have been significant changes to French defence policy as a result of several contextual evolutions Changes include shifts in the global balance of power new understandings of the notion of international security economic downturns and developments in European integration Yet despite these changes the purpose of France s grand strategy and its main principles have remained remarkably stable over time This book identifies the incentives representations and objectives of French defence policy The authors examine the general mechanisms that influence policy change and military transformation in democracies the importance of status seeking in international relations the processes of strategy making by a middle power and the dilemmas and challenges of security cooperation By doing so the book raises a

number of questions related to the ways states adjust or not their security policies in a transformed international system This book makes French language sources available to non French speaking readers and contributes to a better understanding of a country that is at the forefront of Europe s external action This book will be of great interest to students of defence studies French politics military studies security studies and IR in general **National Myths in Renaissance France** R. E.

Asher,1993 It was the seventh century Chronicle of Fredegar which first gave the Franks a Trojan ancestry and the lineage stuck This fascinating new study shows how even as late as the sixteenth century historians and poets found the lure of the eponymic hero Francus the Glorious Druids and the Great Celtic Past irresistible It describes how obsessed with the origins of their country and the prevailing nationalism of the age early sixteenth century writers were largely uncritical of their highly spurious sources even acknowledged forgeries such as those of Annius of Viterbo However a desire to replace fiction with fact gradually took hold as the Renaissance progressed and National Myths examines the reasons for this change of mood and discusses the emotional satisfaction afforded by a belief in the Trojan and Gallic legends With its topical themes of nationalism and the politicisation of history this book sheds new light on Renaissance historiography and on the history of ideas in general BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **The State of France** Herbert Lüthy,1955 Figurations of France Marcus Keller,2011-04-22 In Figurations of France Literary Nation Building in Times of Crisis 1550 1650 Marcus Keller explores the often indirect and subtle ways in which key texts of early modern French literature from Joachim Du Bellay s *D fence et illustration de la langue fran aise* to Corneille s *Le Cid* contribute to the fiction of France as a nation Through his fresh take on these and other classics he shows that they not only create the French as an imaginary community but also provide venues for an incisive critique of the political and cultural construct that underpins the modern nation state Current theories of nationhood in particular the concepts of the nation form and fictive ethnicity tienne Balibar inform the close readings of Du Bellay s *D fence* Ronsard s *Discours d Aubign s Tragiques* Montaigne s *Essays* Malherbe s odes and Corneille s *Le Cid* and Horace They reveal the imaginary power and unifying force of early modern figurations of France that come to bear in this heterogeneous corpus of French literature with texts ranging from manifesto and epic poem to essay and tragedy Situating each author and text in their particular historical context the study suggests that the literary invention of France in the sixteenth and seventeenth centuries is as abundant as it is conceptually innovative Du Bellay for example develops an idea of France by portraying the French language as a pruned and grafted tree while d Aubign proposes to think of the French as a nuclear but fatherless family Blood functions as a highly charged metaphor of nationhood in all texts Opening up new perspectives on these canonical works the focus on literary nation building also puts them into unexpected and thought provoking relationships to each other Figurations of France deliberately crosses the fictive boundary between the sixteenth and the seventeenth centuries and argues that in terms of imaginary nation building the contours that delineate the early modern period and separate it from what we call the modern

era quickly begin to dissolve Ultimately the book makes the case for early modern literature as a creative and critical discourse able to nourish and nuance our thinking about the nation as the postmodern nation state is increasingly called into question by the economical political and cultural effects of globalization Published by University of Delaware Press Distributed worldwide by Rutgers University Press **The Myth of the Savage** Olive Patricia Dickason, 1997 An examination of the early contacts between explorers and Amerindians the variety of societies in the New World the development of European beliefs and attitudes towards Amerindians the origins of the concept of l homme sauvage relations between Amerindians and the early colonists and missionaries and the outcome of colonization of the New World Focuses on France s particular experiences in exploration trade and colonization especially in Brazil Florida and on the St Lawrence

Reporting U.S.-European Relations Michael Rice, Jonathan Carr, Henri Pierre, 2018-02-06 Reporting U S European Relations Four Nations Four Newspapers is a compilation of U S and European perspectives from different daily newspapers Chapter 1 is about the Frankfurter Allgemeine Zeitung FAZ After a brief background of the newspaper from one dictator to another the paper is described as having no editor The political economic and cultural policies are made by editor publishers Political philosophy in the FAZ is very cohesive and conservative which readers of a wide political spectrum rely upon Chapter 2 deals with the New York Times which is founded in 1851 and has undergone many changes making it the most respected daily newspaper in the United States This circulation is considered a chronologist of current events and more than an opinion maker it is also considered an educator Chapter 3 is about The Times London founded in 1785 under a different name This circulation is one of the most influential newspapers in the world with a succession of notable editors Considered by some as boring this newspaper is bought by Rupert Murdoch making it still in substance a uniquely British expression of life Chapter 4 is about Le Monde founded in December 1944 upon the request of General Charles de Gaulle This circulation is considered the most important and prestigious daily newspaper in France very nationalistic and a receptacle for debate This collection of essays will prove invaluable to practicing journalists politicians public and government leaders and students of journalism Writers and authors will also find this collection entertaining and informative **France and the**

Exploitation of China, 1885-1901 Robert Lee, 1989 This book is an examination of the development of the French imperial mission in China from 1885 to 1900 French industry and capital contributed to the construction of the great Fort Arthur naval base and the Beijing Hankou railway and paid for much of Russia s encroachment in Manchuria By 1900 French interests were diffused throughout China Lee demonstrates France s preference for a policy of economic penetration rather than the establishment of a territorial sphere of interest and evokes a remarkable period of European territorial acquisitiveness and competition **Attitudes of the French Parliament and Government Toward Atomic Weapons**

Christian de La Malène, Constantin Melnik, 1959 *The Saturday Review of Politics, Literature, Science and Art*, 1877

Contemporary French Cinema, 2nd Edition Guy Austin, 2008 Tracing the history of contemporary French cinema Guy
