Ashby, 1987 **Spiritual Emergency** Stanislav Grof, Christina Grof, 1989-09 From Spiritual Emergency to Healing and Rebirth Increasing numbers of people involved in personal transformation are experiencing spiritual emergencies crises when the process of growth and change becomes chaotic and overwhelming Individuals experiencing such episodes may feel that their sense of identity is breaking down that their old values no longer hold true and that the very ground beneath their personal realities is radically shifting In many cases new realms of mystical and spiritual experience enter their lives suddenly and dramatically resulting in fear and confusion They may feel tremendous anxiety have difficulty coping with their daily lives jobs and relationships and may even fear for their own sanity Unfortunately much of modern psychiatry has failed to distinguish these episodes from mental illness As a result transformational crises are often suppressed by routine psychiatric care medication and even institutionalization However there is a new perspective developing among many mental health professionals and those studying spiritual development that views such crises as transformative breakthroughs that can hold tremendous potential for physical and emotional healing When understood and treated in a supportive manner
